Join us on this journey to empower the next generation, one click at a time. Fact Forward Dan

Gaylin, 2025-04-08. *Solutions to Increase Trust and Empower Better Decision Making in a Data-Rich World: Fact Forward: The Perils of Bad Information and the Promise of a Data Savvy Society* explores how a growing deluge of data has led to a data-rich world with abundant new opportunities and a precipitous decline in trust due to the problems we face in producing, communicating, and consuming data. This book takes readers on a journey through the data ecosystem, showing how data producers, data consumers, and data disseminators all have a role to play in creating a more data-savvy society. Written by Dan Gaylin, president and CEO of NORC at the University of Chicago, a leading research organization in the field of social science and data science, this book demonstrates the urgent need for greater transparency on the part of data producers, increased data literacy on the part of data communicators and data consumers, a societal commitment to data education and infrastructure. *Fact Forward: The Perils of Bad Information and the Promise of a Data Savvy Society* earns a well-deserved spot on the bookshelves of leaders across industries and all individuals who want to build a better society and world by improving the way we present, analyze, and make use of data. *The Borderless Healthcare Revolution* Sarah

Matt, 2025-11-19. *Concrete Hands-On Strategies for Making Healthcare More Accessible for Everyone: The Borderless Healthcare Revolution: The Definitive Guide to Breaking Geographic Barriers Through Technology* is your field guide to a future in which a clinic visit is never farther away than the nearest screen and a surgeon's skill can cross oceans in real time. Drawing on two decades at the intersection of medicine and technology, including years as a senior leader at Oracle's global health division, Dr. Sarah Matt translates frontier-grade innovation into day-to-day practice for clinicians, health system strategists, and policymakers who refuse to accept geography as destiny. Inside, you will find concrete playbooks rather than platitudes; every framework has been piloted in settings that range from Manhattan cath labs to Kenyan community clinics.

You will also meet the patients and providers whose lived stories prove that digital transformation works only when it works for everyone What you will learn The tech that already moves care without moving patients telemedicine remote surgery ambient AI and how adoption curves exploded after 2020 with more than three quarters of US hospitals now running telehealth programs Human centered design tactics that translate pixels into trust from inclusive language pivots to offline first apps that respect bandwidth deserts A five pillar access audit that flags physical financial cultural digital and trust barriers in any market plus scorecards to track progress Strategy checklists forged during Dr Matt s tenure at Oracle for aligning payers regulators and vendors around sustainable reimbursement models Future readiness briefs on robotics and mixed reality training at a moment when the surgical robotics market is projected to triple by 2031 Whether you lead a rural health network build digital products or craft policy The Borderless Healthcare Revolution The Definitive Guide to Breaking Geographic Barriers Through Technology gives you the tools to expand access today and blueprint the borderless systems of tomorrow Read it then use it to deliver care that travels at the speed of need [Corporate Risks and Leadership](#) Eduardo E. Mariscotti,2025-04-24 The context of business has been changing for companies in recent years and following numerous corporate and accounting scandals many countries have increased the number of national and international regulations designed to ensure transparency and compliance with the law Because of the existence of these new regulations the level of control the severity of sanctions by governments and the amount of fines for noncompliance have increased dramatically In parallel with the technological revolution in communications business management has become more transparent and any negative event is uploaded to social networks and shared with an indeterminate number of people This change in the regulatory sanctioning and technological context has forced large companies to rethink risks investments and budgets to deal with this more complex environment To transition to this change some companies have included ethics and compliance programs in their corporate agenda along with marketing and sales plans strategies growth targets investment plans and or talent acquisition While each industry has its particular risks in this book the author describes the essential elements that any effective ethics and compliance program should contain This book is a source of information that connects yesterday with today The author shares observations and lessons of the past to suggest corporate leaders implement effective ethics and compliance programs to protect their organizations and themselves This book covers theories of ethics but with an eye focused on practical application Risks ethics and compliance are analyzed with an overall vision connected to the reality of business life without getting bogged down in abstract thinking or technical and regulatory details Ethics and compliance are disciplines that have increasingly achieved greater recognition in organizations Thus due to the importance of risk management in the business world and the necessary involvement of the CEO and the board of directors it seems appropriate that executives get access to this book about risks ethics compliance and human resources directed not only to compliance experts but also to any organizational leader This second edition offers various examples to cultivate ethical thinking and

resource for meeting the needs of an ageing patient population As the global population ages geriatric medicine is steadily
becoming one of the most important areas of medical research and care Healthcare systems in developed countries are
adapting to this shift in the population and doctors are finding that a larger and larger proportion of their patients are older
Current medical training often does not include adequate coverage of geriatric medicine and students may well find they
require more extensive resources for meeting older patients needs Lecture Notes Geriatric Medicine and Elderly Care meets
this need with a set of comprehensive but straightforward introductions to the foundational concepts of geriatric medicine
Combining a user friendly format with extensive high quality figures and illustrations it is a must have resource for medical
students looking to deepen their knowledge of a widening area of essential care Now thoroughly revised and updated to
reflect the latest research and medical knowledge of ageing and elder care this is an essential contribution to the popular
Lecture Notes series Readers of the ninth edition of Lecture Notes Geriatric Medicine and Elderly Care will also find New
chapters on the science of ageing including immunosenescence and rejuvenation research and geriatric oncology Full
coverage of the British Geriatrics Society and European undergraduate curriculums A companion website with appendices
key revision points for each chapter and further readings Lecture Notes Geriatric Medicine and Elderly Care is ideal for
