## Switch Oled Ideas:

Amorphous Oxide Semiconductors Hideo Hosono, Hideya Kumomi, 2022-05-17 AMORPHOUS OXIDE SEMICONDUCTORS  
A singular resource on amorphous oxide semiconductors edited by a world recognized pioneer in the field In Amorphous Oxide Semiconductors IGZO and Related Materials for Display and Memory the Editors deliver a comprehensive account of the current status of and latest developments in transparent oxide semiconductor technology With contributions from leading international researchers and exponents in the field this edited volume covers physical fundamentals thin film transistor applications processing circuits and device simulation display and memory applications and new materials relevant to amorphous oxide semiconductors The book makes extensive use of structural diagrams of materials energy level and energy band diagrams device structure illustrations and graphs of device transfer characteristics photographs and micrographs to help illustrate the concepts discussed within It also includes A thorough introduction to amorphous oxide semiconductors including discussions of commercial demand common challenges faced during their manufacture and materials design Comprehensive explorations of the electronic structure of amorphous oxide semiconductors structural randomness doping limits and defects Practical discussions of amorphous oxide semiconductor processing including oxide materials and interfaces for application and solution process metal oxide semiconductors for flexible electronics In depth examinations of thin film transistors TFTs including the trade off relationship between mobility and reliability in oxide TFTs Perfect for practicing scientists engineers and device technologists working with transparent semiconductor systems Amorphous Oxide Semiconductors IGZO and Related Materials for Display and Memory will also earn a place in the libraries of students studying oxides and other non classical and innovative semiconductor devices WILEY SID Series in Display Technology Series Editor Ian Sage Abelian Services Malvern UK The Society for Information Display SID is an international society which has the aim of encouraging the development of all aspects of the field of information display Complementary to the aims of the society the Wiley SID series is intended to explain the latest developments in information display technology at a professional level The broad scope of the series addresses all facets of information displays from technical aspects through systems and prototypes to standards and ergonomics Successful Business Model Transformations in Disruptive Times Thomas Rudolph, Markus Schweizer, 2024-06-17 The authors offer solutions for established corporations facing disruptive challenges Based on extensive research and discussion a unique management approach the High 5 approach has been developed to promote successful self disruption in established corporations At the center of this approach is the transformation of the core business The book supports the idea of permanent self disruption as the key to success for established players Successful Business Model Transformations in Disruptive Times is aimed at the management of various industries This book provides managers in established corporations with a theoretically sound and practical guide *Assessment of Solid-State Lighting, Phase Two* National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Board

on Energy and Environmental Systems, Committee on Assessment of Solid-State Lighting, Phase 2, 2017-06-11 The standard incandescent light bulb which still works mainly as Thomas Edison invented it converts more than 90% of the consumed electricity into heat Given the availability of newer lighting technologies that convert a greater percentage of electricity into useful light there is potential to decrease the amount of energy used for lighting in both commercial and residential applications Although technologies such as compact fluorescent lamps CFLs have emerged in the past few decades and will help achieve the goal of increased energy efficiency solid state lighting SSL stands to play a large role in dramatically decreasing U S energy consumption for lighting Since the publication of the 2013 National Research Council report Assessment of Advanced Solid State Lighting the penetration of SSL has increased dramatically with a resulting savings in energy and costs that were foreshadowed by that study What was not anticipated then is the dramatic dislocation and restructuring of the SSL marketplace as cost reductions for light emitting diode LED components reduced profitability for LED manufacturers At the same time there has been the emergence of new applications for SSL which have the potential to create new markets and commercial opportunities for the SSL industry Assessment of Solid State Lighting Phase Two discusses these aspects of change highlighting the progress of commercialization and acceptance of SSL and reviewing the technical advances and challenges in achieving higher efficacy for LEDs and organic light emitting diodes This report will also discuss the recent trends in SSL manufacturing and opportunities for new applications and describe the role played by the Department of Energy DOE Lighting Program in the development of SSL

*Advanced Display Technology* In Byeong Kang, Chang Wook Han, Jae Kyeong Jeong, 2021-05-20 This book provides a comprehensive and up to date guide to the AMOLED technologies and applications which have become industry standard in a range of devices from small mobile displays to large televisions Unlike other books on the topic which cover the fundamentals materials processing and manufacturing of OLEDs this one stop book discusses the core components such as TFT backplanes OLED materials and devices and driving schematics together in one volume with chapters written by experts from leading international companies in the field of OLED materials and OLED TVs It also examines emerging areas such as micro LEDs displays using quantum dots and AR VR displays Presenting the latest research trends as well as the basic principles of each topic this book is intended for undergraduate and postgraduate students taking display related courses new researchers and engineers in related fields
