Michael McQueen,2016-03-17 Based on a 6 year study of 500 of the world s biggest brands Winning the Battle for Relevance seeks to answer the question What separates the enduring from the endangered As businesses industries and revenue models continue to be disrupted at an alarming rate leaders would do well to learn from the mistakes of fallen brands such as Borders Kodak and Blockbuster lest they fall into the same trap Better still Winning the Battle for Relevance highlights what every organization and institution can learn from enduringly successful brands in order to win the battle for relevance in the turbulent years ahead **Judgment on the Front Line** Chris DeRose,Noel M. Tichy,2012-10-11 Front line employees who deal directly with customers are the face of any organization Not only do they have the most impact on how a brand is perceived but they are also the most valuable source of insight into what customers want and how to give it to them

Unfortunately as management experts Chris DeRose and Noel M Tichy explain most organizations don t know how to evaluate the risk of giving employees more autonomy Many of those who are willing to try haven t even invested resources in ensuring that once the shackles are off front line employees make good judgments Tichy and DeRose offer powerful examples of front line leadership such as How Zappos trusts its people to do anything in service of a customer including providing free product or reimbursing for mistakes How Mayo Clinic of Arizona enabled its nurses to challenge the hierarchy in order to improve patient care Brandweek ,2010-04 Better, Simpler Strategy Felix Oberholzer-Gee,2021-04-20 Named one of the best strategy books of 2021 by strategy business Get to better more effective strategy In nearly every business segment and corner of the world economy the most successful companies dramatically outperform their rivals What is their secret In Better Simpler Strategy Harvard Business School professor Felix Oberholzer Gee shows how these companies achieve more

by doing less At a time when rapid technological change and global competition conspire to upend traditional ways of doing business these companies pursue radically simplified strategies At a time when many managers struggle not to drown in vast seas of projects and initiatives these businesses follow simple rules that help them select the few ideas that truly make a difference Better Simpler Strategy provides readers with a simple tool the value stick which every organization can use to make its strategy more effective and easier to execute Based on proven financial mechanics the value stick helps executives decide where to focus their attention and how to deepen the competitive advantage of their business How does the value stick work It provides a way of measuring the two fundamental forces that lead to value creation and increased financial success the customer s willingness to pay and the employee s willingness to sell their services to the business Companies that win Oberholzer Gee shows create value for customers by raising their willingness to pay and they provide value for talent by lowering their willingness to sell The approach proven in practice is entirely data driven and uniquely suited to be cascaded throughout the organization With many useful visuals and examples across industries and geographies Better Simpler Strategy explains how these two key measures enable firms to gauge and improve their strategies and operations Based on the author s sought after strategy course this book is your must have guide for making better strategic decisions

Luxury*

*Hotels in Germany* Ashraf Abueed,2015-11-03 Master s Thesis from the year 2014 in the subject Tourism Miscellaneous grade 1 3 Munich University of Applied Sciences course Hospitality Management language English abstract The prominence of the web as a distribution channel for hotel rooms as well as its transparency and ease for price comparison create a need for the hoteliers to think strategically in terms of rate setting and pricing practices on numerous web based distribution channels The overarching purpose of this exploratory study is to investigate the current online pricing practices of luxury hotels in Germany and to explore potential challenges that they face in distributing their rooms on the web The data covering 29 hotels in the top 4 primary cities in Germany was collected from 11 B2C web based distribution channels over a 26 day period at 6 separate points in time leading up to predetermined arrival date These channels including the hotels own websites along with 10 indirect channels represent various types of operation The data were analyzed by means of descriptive statistics Personal interviews with the regional director of revenue management and the regional web e commerce executive of an international hotel company were conducted to support the findings and to gain supplemental insights into the relevant issues Key findings of this study were that a complete rate consistency did not exist across the utilized channels and that a customer who surfs the web for a particular hotel may find better rates and conditions than those offered by the hotels own websites which negates the best rate guarantee that is claimed by many hotels The reselling of net rates to the end customer on the web was identified as a crucial challenge faced by the hoteliers which leads to the loss of a hotel s control over pricing Furthermore the findings suggest that in many instances the hoteliers neither applied logical pricing practices nor ensured an adequate presence on the web Logical pricing practices aim to optimize revenue while ensuring customer satisfaction This paper is meant to be a starting point for hoteliers who are interesting in better

understanding the power of online pricing and its impact on hotel profitability and to reevaluate their prices and presence across the various web based distribution channels Shifting away from complex revenue management systems this study outlines some recommendations that could be useful for hoteliers in their effort to maximize their revenues and profit while keeping the focus on the customer as a focal point
