The Sacred Chain Jim Stump,2024-04-02 In this marvelously accessible book philosopher Christian Jim Stump provides the reader with new eyes for a journey through time the origin of the soul suffering and morality and reveals how the latest scientific findings about what it means to be human have led him to a deeper and more authentic faith Francis S Collins Director of the Human Genome Project and Founder of BioLogos author of *The Language of God* A thought provoking and eye opening work by Jim Stump Vice President at BioLogos and host of the *Language of God* podcast offering a compelling argument about how evolution does not have to be at odds with faith but can actually enrich and deepen it In this moving and deeply thoughtful book Jim Stump takes readers with him on his journey to understanding evolution and reconciling it with his faith *The Sacred Chain* draws on philosophy theology and the latest scientific research to tackle some of the biggest questions facing humanity and people of faith today such as How can we hold the Bible as a sacred text and yet reconcile modern science with it By condensing noteworthy events in the history of our universe into one calendar week what can we learn about God s creative process and priorities and where humans fit in If humans are created in the image of God what does evolution have to teach us about our species and our place in creation What about the soul How can we understand our transcendent qualities if the human body is the product of evolution How does evolutionary science help us understand how God might use pain and suffering for important and good purposes Does it have to be one or the other science or religion or is there a third way one that not only preserves faith in the face of modern science but leads to a stronger more relevant and more authentic faith Deeply researched and a delight to read *The Sacred Chain* provides clarity in our uncertain times revealing a bigger picture of our world and our place within it It is a panorama consistent with the scientific findings about who we are and where we come from that can actually bolster our faith as it engages our curiosity about ourselves our universe and the nature of existence itself

Pivot or Die
Gary Shapiro,2024-10-08 From Gary Shapiro New York Times bestselling author and head of CES and the Consumer

Technology Association a manifesto for today's top executives entrepreneurs and leaders pivot or die As CEO of the Consumer Technology Association owner and producer of CES Gary Shapiro has had a front row seat to the launch of nearly every recent major technology He's seen tech companies rise and fall and bankrupt entrepreneurs become billionaires After more than four decades in the industry he knows that leaders who make it in the tech world have one thing in common they know how to pivot Drawing upon detailed case studies economic theory and personal experience Pivot or Die offers a behind the scenes look at the development of innovative technology and business strategies Along the way Shapiro offers a pivot framework for leaders in technology and beyond to stay flexible and agile The startup pivot how startups can shake up industries and maximize the advantage of new ideas The forced pivot adapting to the unforeseeable or simply unforeseen and meeting shifting consumer demands The failure pivot why failure can deliver better lessons than success and how to take those lessons forward The success pivot Beating the market by seizing opportunity and out pivoting your competitors In laying out each of these pivots Shapiro shares unique lessons on how leaders can change minds and mindsets and steer their organizations to success in an increasingly competitive environment Leadership 2.0 in processes of a sustainable change Prof. Dr. Michael Kurwan, 2025-06-30 Document from the year 2025 in the subject Leadership and Human Resources Leadership language English abstract In order to successfully implement sustainable changes in a company in the context of change processes strong leadership is required at the top of a company which should have a great deal of empathy and a sure instinct in order to position the company in the market in the long term and profitably In order to successfully shape these sustainable changes it will not be the famous power of the leader of the past but will only work with the involvement of employees in the new world of work in the knowledge age which is characterized by digitalization and artificial intelligence This new form of leadership is also referred to as Leadership 2.0 in which it is important to retain top performers and in particular key personnel in the company in the long term which is a very challenging leadership task in HR management In change processes a fundamental distinction must be made between incremental change management and radical change management While incremental change takes place continuously and is integrated into everyday working life radical change represents a strategic realignment of the company which is largely associated with staff reductions and is intended to change the corporate culture This is particularly true in the case of restructuring where cost cutting programs play a decisive role in ensuring the long term survival of the company Employees are more willing to go along with incremental change also known as continuous improvement than radical change as they could also be affected by staff cuts This fuels employees' fears and therefore often leads to high staff turnover **Negotiation Essentials: The Tools You Need to Find Common Ground and Walk Away a Winner** Keld Jensen, 2023-11-14 Actionable easy to understand negotiating strategies you can use to dramatically improve your business career and personal life Negotiations can be a perplexing and often intimidating endeavor Are there aspects about the process that are hiding beneath the surface unknown to even experienced negotiators
