Transforming Organizations for the Subscription Economy Alexander Manu, 2017-08-18 The emerging present is a fast changing context for incumbent organizations especially in market segments where online behavior is replacing physical proximity and users engage with digital platforms for the acquisition of products and services These are platforms that allow users to behave to leave a mark and to participate in the community of others which are the values people now seek Transforming Organizations for the Subscription Economy Starting from Scratch aims to prepare executives for a world in which everything is social augmented and autonomous

objects and spaces will have multiple purposes capabilities and meanings This is a new territory full of opportunity which is generally discussed only at the level of technology involved instead of the intellectual level where the real understanding of the need for transformation resides The book reveals ideas about what is possible if we transform the present The narrative is organized around what is actual and what is potential what is the probable future that we can arrive at through change and what is the possible future that we can build through transformation When engaging in transformation the following strategic question develops if you were designing your organization today how would you design it In other words how would you go about it starting from scratch This book provides the intellectual framework that empowers organizations to understand and navigate the emerging present and to develop and deliver products and services of intrinsic value to users

It's All Analytics! Scott Burk, Gary D. Miner, 2020-05-25 It's All Analytics The Foundations of AI Big Data and Data Science Landscape for Professionals in Healthcare Business and Government 978 0 367 35968 3 325690 Professionals are challenged each day by a changing landscape of technology and terminology In recent history especially in the last 25 years there has been an explosion of terms and methods that automate and improve decision making and operations One term analytics is an overarching description of a compilation of methodologies But AI artificial intelligence statistics decision science and optimization which have been around for decades have resurged Also things like business intelligence online analytical processing OLAP and many many more have been born or reborn How is someone to make sense of all this methodology and terminology This book the first in a series of three provides a look at the foundations of artificial intelligence and analytics and why readers need an unbiased understanding of the subject The authors include the basics such as algorithms mental concepts models and paradigms in addition to the benefits of machine learning The book also includes a chapter on data and the various forms of data The authors wrap up this book with a look at the next frontiers such as applications and designing your environment for success which segue into the topics of the next two books in the series
