Perone,2007-06-30 All Music Guide s Stephen Thomas Erlewine has written Even when he was out of fashion in the 80s and 90s it was clear that Bowie was one of the most influential musicians in rock for better or worse In this comprehensive analysis of David Bowie s career author James Perone examines the many identities and styles Bowie has developed over the years and in so doing provides a stunning chronicle of creativity at work Born David Jones in a London suburb in 1947 David Bowie changed his name in the late 60s to avoid confusion with the singer David Jones of The Monkees This name change would turn out to be a highly prescient act for in incorporating an exceptionally wide variety of styles Bowie would become the most notorious chameleon of the rock era Due in large part to his early success in the glam rock subgenre and his claims of homosexuality dismissed by many writers as a ploy to generate public interest and record sales Bowie raised serious issues about sexual orientation in rock music regardless of whether or not his claimed homosexuality was genuine or part of his on stage character His regular use of theatrical personae also raises interesting issues concerning authenticity and the perception of authenticity in rock music Although Bowie has been primarily an album artist his recordings of Fame Golden Years Let s Dance China Girl Blue Jean and Dancing in the Streets all made it into the Billboard top 10 singles charts Of these all but one was written or co written by Bowie Even more notable are the songs he wrote and recorded that have made an impact far in excess of their chart standing These include Space Oddity Rebel Rebel Changes Modern Love and Young Americans From his early 1970s albums like Hunky Dory and The Rise Fall of Ziggy Stardust and the Spiders from Mars in both of which he assumed the character of the fictional androgynous Stardust to Diamond Dogs Heroes Tin Machine and Black Tie White Noise Bowie s albums generated both significant word of mouth interest and some of the most contentious critical reactions of any artist of the rock era This long overdue investigation lets

Bowie's artistry speaks for itself. After a biographical introduction, chronologically arranged chapters discuss the singer's fascinating and iconoclastic body of work. A discography and annotated bibliography conclude the book. *MTR; Music Trades Review*, 1877 *Text Linguistics in Heavy Metal Magazines and Webzines* Arlette Huguenin Dumittan, 2014-07-01

The internet has created many new text types and journalistic publications have not remained unaffected. The following PhD thesis analyzes one such text type, the webzine, and particularly its role within the heavy metal music scene in both the English and German language context. Apart from the online presence of established magazines, webzines have no counterpart. Characteristically, they are situated somewhere between being a purely journalistic publication while at the same time offering their users an active social online community. Herein, the influence of digital hypertext structures will be illustrated as well as the alternative text producer and recipient roles which are directly affected by the inherent interactivity of webzines. Finally, this work depicts the influence of social media on journalistic publications and possible future developments, the findings of which are also relevant to webzines and similar journalistic endeavours dedicated to other topics. Das WWW hat zahlreiche neue Textsorten kreiert und journalistische Publikationen sind von dieser Entwicklung nicht ausgeschlossen. Die folgende Dissertation analysiert eine solche neue Textsorte, das Webzine, und vor allem seine Rolle innerhalb der Musikszene des Heavy Metals sowohl im deutschen wie auch im englischen Sprachkontext. Abgesehen von den Websites renommierter Printmagazine haben die Webzines kein Pendant. Sie positionieren sich zwischen rein journalistischer Publikation und aktiver sozialer Online Community für ihre Anwenderinnen. Die Studie widmet sich dem Einfluss digitaler Hypertextstrukturen auf die Webzines sowie den neuen Rollen der Textproduzentinnen und Rezipientinnen aufgrund der inhärenten Interaktivität der Webzines. Abschliessend zeigt die Studie den Einfluss der Social Media auf diese journalistischen Publikationen auf und skizziert mögliche zukünftige Entwicklungen im Online Journalismus. *The Review of Reviews* William Thomas Stead, 1895

The Words and Music of James Taylor James E. Perone, 2017-11-10 A valuable resource for James Taylor fans and a fascinating read for anyone interested in autobiographical popular music of the past 50 years. What kinds of unusual musical forms and lyrical structures did American singer-songwriter James Taylor incorporate into his songs? What role did Taylor play in the introspective singer-songwriter movement of the 1970s? How did Taylor write and record songs that were inspired from his own experiences in life that touched so many other people? *The Words and Music of James Taylor* explores these specific topics and provides detailed critical analysis of the songs and recordings of this well-known musical icon, examining his melodic writing, his use of harmony, and his often unappreciated tailoring of musical form to enhance his lyrical messages. The book is organized chronologically, primarily around Taylor's studio albums from 1968 to 2015, and offers an introduction, a summary of Taylor's career and importance, as well as an annotated bibliography and discography. The final section of the book presents an overview of Taylor's importance and lasting impact, an analysis of themes that run through his songs, and an explanation of how Taylor's treatment of these themes changed over the years as he matured and as the world
