The Meaning of Myth in Uncertain Times Evelien Bracke, 2025-12-29 This book examines how ancient mythology forms part of the stories we tell ourselves about today s uncertain times not only in popular culture but also in sociocultural and political debates It particularly explores the ways in which classical myths shape how our modern secular societies think about the interconnected geopolitical technological and ecological issues we are facing and our potential futures Classical myths like those of Achilles Medea and Odysseus are everywhere from films and novels to social media and games But how and why are we still fascinated with them particularly now Can these strange and often painful stories from societies so radically different from our own offer us genuine insights today This expanded English edition of Evelien Bracke s award winning Dutch book *Leidraad door het labyrint* explores how and why Greek and Roman myths despite their ancient origins are surprisingly meaningful in these times of uncertainty Bracke offers a contextualization and literary analysis of classical mythology looking at both texts and visual media This allows readers to gain a better understanding of how people draw inspiration from the past in their attempt to create a better future and how these stories provide both collective and individual guidance in navigating the turbulent 21st century The Meaning of Myth in Uncertain Times is suitable for students scholars teachers and general readers interested in mythology and ancient Greek and Roman history and culture providing insights that are relevant to the challenges we all face today

Mesmerization Gee Thomson, 2008 In the modern Western world hundreds if not thousands of contagious ideas spread by word of mouth or through the media spells or memes make up contemporary culture and affect just about every aspect of our daily life Some of the most powerful of these spells form the core of Mesmerization In this highly visual publication the

many facets of each spell are dissected and analysed within a unique graphic formula that exposes and encapsulates its meaning and purpose The most successful of such constructs are the creation of the media the image makers advertising executives newspaper editors creatives designers photographers and film producers who make up the ranks of the creative elite Their dreams of affluence comfort and wellbeing are being emulated the world over More than we know they determine what we believe how we behave and think and control our decisions as to what gets made what gets seen what gets heard But there are cracks in this wonderland Psychological disorders drug dependency obesity gun crime and social addictions are on the rise Worldwide the gaping disparity between rich and poor nations religious unrest disease and famine resource scarcity and fears over climate change head the agenda The influence and aspirations of our lifestyles are central to these issues How can we make headway in confronting our wider realities when we have an image machine that is totally at loggerheads with the need for restraint By revealing the collective power of these insidious cultural influences Mesmerization is a challenge to the creative industry to those who control the motivational drivers underpinning the global psyche In their hands rests the ability to change and transform future behaviour This publication provides the catalyst
