Proceedings of the 23rd International Conference on Industrial Engineering and Engineering Management 2016 Ershi Qi, Jiang Shen, Runliang Dou, 2017-03-07 International Conference on Industrial Engineering and Engineering Management is sponsored by Chinese Industrial Engineering Institution CMES which is the unique national level academic society of Industrial Engineering. The conference is held annually as the major event in this area. Being the largest and the most authoritative international academic conference held in China, it supplies an academic platform for the experts and the entrepreneurs in International Industrial Engineering and Management area to exchange their research results. Many experts in various fields from China and foreign countries gather together in the conference to review, exchange, summarize and promote their achievements in Industrial Engineering and Engineering Management fields. Some experts pay special attention to the current situation of the related techniques application in China as well as their future prospect such as Industry 4.0, Green Product Design, Quality Control and Management, Supply Chain and logistics Management to cater for the purpose of low carbon energy saving and emission reduction and so on. They also come up with their assumption and outlook about the related techniques development. The proceedings will offer theatrical methods and technique application cases for experts from college and university research institution and enterprises who are engaged in theoretical research of Industrial Engineering and Engineering Management and its techniques application in China. As all the papers are feathered by higher level of academic and application value, they also provide research data for foreign scholars who occupy themselves in investigating the enterprises and engineering management of Chinese style. [What Movies Teach about Race](#) Roslyn M. Satchel, 2016-11-29 What Movies Teach about Race: Exceptionalism, Erasure, Entitlement reveals the way that media frames in entertainment content persuade audiences to see themselves and others through a prescriptive lens that favors whiteness. These media representations threaten democracy as conglomeration and convergence concentrate the media's global influence in the hands of a few corporations. By linking film's political economy with the movie content in the most influential films, this critical discourse study uncovers the socially shared cognitive structures that the movie industry passes down from one generation to another. Roslyn M. Satchel encourages media literacy and proposes an entertainment media cascading network activation theory that uncovers racialized rhetoric in media content that cyclically begins in historic ideologies, influences elite discourse, embeds in media systems, produces media frames and representations, shapes public opinion and then is recycled and perpetuated generationally. **A/V A to Z** Richard W. Kroon, 2010-03-30 Defining more than 10 000 words and phrases from everyday slang to technical terms and concepts, this dictionary of the audiovisual language embraces more than 50 subject areas within film, television and home entertainment. It includes terms from the complete lifecycle of an audiovisual work from initial concept through commercial presentation in all the major distribution channels including theatrical exhibition, television broadcast, home entertainment and mobile media. The dictionary definitions are augmented by
