Power Building In Documentation:

Deep Energy Retrofit Guide for Public Buildings Rüdiger Lohse,Alexander Zhivov,2019-04-10 This book provides detailed information on how to set up Deep Energy Retrofits DERs in public buildings and shares in depth insights into the current status of the major technologies strategies and practical best practice examples of how to cost effectively combine them Case studies from Europe are analyzed with respect to energy use before and after renovation reasons for undertaking the renovation co benefits achieved resulting cost effectiveness and the business models employed The building sector holds the potential for tremendous improvements in terms of energy efficiency and reducing carbon emissions and energy retrofits to the existing building stock represent a significant opportunity in the transition to a low carbon future Moreover investing in highly efficient building materials and systems can replace long term energy imports contribute to cost cutting and create a wealth of new jobs Yet while the technologies needed in order to improve energy efficiency are readily available significant progress has not yet been made and best practices for implementing building technologies and renewable energy sources are still relegated to small niche applications Offering essential information on Deep Energy Retrofits the book offers a valuable asset for architects public authorities project developers and engineers alike

A Guide for Developing Zero Energy Communities John Whitcomb,2014-11-26 A Planning Guide for Developing Zero Energy Communities also called The ZEC Guide helps developers corporations institutions governments utility companies and communities create cities campuses and neighborhoods that by design conserve energy and incorporate electric vehicle charging using renewable energy to power those buildings and vehicles ZECs provide a net balance of the supply and demand for local energy based on the National Renewable Energy Laboratories NREL ZEC definition The ZEC Guide addresses both Greenfield and Retrofit ZECs of various project sizes and complexities The environmental impacts regulatory issues resistance and economics are described The ZEC Guide includes an extensive primer regarding renewable energy control systems energy storage and hybridization of technologies The guide provides a step by step process for evaluation and implementation and an explanation of how to create a ZEC program and align it with other sustainability and green building standards Extensive references are provided for a multitude of relevant resources The 202 page book includes forty two photos and illustrations

The Art of M&A Strategy: A Guide to Building Your Company's Future through Mergers, Acquisitions, and Divestitures Kenneth Smith,Alexandra Reed Lajoux,2012-01-05 Seize the competitive advantage with today s most powerful strategic tool M A Given the influence of technology globalization and regulatory change M A will continue to shape our industries For most companies therefore the consideration of M A in strategy is now fundamental from the Introduction to Part I The Art of M A Strategy is exactly what you need to build mergers acquisitions and divestitures into your overall business strategy to make M A a competitive advantage and avoid landing on the long list of M A failures Experts in the field of M A Smith and Lajoux demystify this otherwise complex subject by taking you through the types of M A strategy and the key steps to successful M A

strategy development and implementation The Art of M A Strategy is conveniently organized into three sections Part I presents a range of possible corporate strategy situations and provides the role and rationale for M A in each such as building and managing a portfolio participating in industry consolidation spurring corporate growth and using acquisitions to create real options Part II outlines how to determine the role of M A in your strategy taking into consideration industry context competitive imperatives and strategy options and explains how to find and screen partners decide whether to buy or sell and engage the board of directors in M A decisions Part III covers M A as a sustained corporate program particularly in the context of international growth outlining the most strategic aspects of post merger integration describing how to use advisors throughout the process and examining core competencies required for successful M A programs The authors illuminate the purpose and process of applying M A with real world success stories involving Cisco GE Google and many other companies that have leveraged M A for strategic success Use The Art of M A Strategy to create a powerful strategy position for success in today s changing business environment and to seize and hold competitive advantage

Modern Methods of Construction and Innovative Materials Arthur Lyons, 2024-04-01 This new textbook has two main themes The first is Modern Methods of Construction MMC which is the off site manufacture of a wide spectrum of products ranging from whole buildings to be transported onto site down to smaller units or components for site integration The second theme describes the innovation and progress towards carbon zero by the major generators of CO₂ in the construction industry namely cement steel and masonry The first section of the book describes and illustrates with photographs the major forms of Modern Methods of Construction These include fully completed 3D units panelised systems pods sub assemblies and on site MMC The section on Innovative Materials then describes a wide range of construction products which are entering into the built environment sector Some new entrants are variants on well established construction materials such as steel and concrete Materials such as these will remain major construction materials for the foreseeable future but their composition and manufacturing processes will inevitably have to change Timber also will remain a major construction material but sustainable sourcing is key and its utilisation as cross lamination timber CLT or as modified timber is rapidly developing As a result students and practitioners must familiarise themselves with these materials their composition and various uses The book goes on to describe variants of other traditional building products such as glass plastic and insulation which are undergoing major developments leading towards enhanced environmental sustainability as well as many emergent materials some of which are likely to be significant in future Modern Methods of Construction and Innovative Materials is the only book combining these important elements of the future of the industry in an easy to read guide for students and new practitioners It is essential reading for anyone studying and working in the built environment be they architects construction managers surveyors or engineers

Reports and Documents United States. Congress, **AIA Guide to the Architecture of Atlanta** Gerald W. Sams, 1993 This lively guidebook surveys four hundred buildings within the Atlanta metropolitan area

from the sleek marble and glass of the Coca Cola Tower to the lancet arches and onion domes of the Fox Theater from the quiet stateliness of Roswell's antebellum mansions to the art deco charms of the Varsity grill Published in conjunction with the Atlanta chapter of the American Institute of Architects it combines historical descriptive and critical commentary with more than 250 photographs and area maps As the book makes clear Atlanta has two faces the Traditional City striving to strike a balance between the preservation of a valuable past and the challenge of modernization and also the Invisible Metropolis a decentralized city shaped more by the isolated ventures of private business than by public intervention Accordingly the city's architecture reflects a dichotomy between the northern emulating boosterism that made Atlanta a boom town and the genteel aesthetic more characteristic of its southern locale The city's recent development continues the trend as Atlanta's workplaces become increasingly high tech its residential areas remain resolutely traditional In the book's opening section Dana White places the different stages of Atlanta's growth from its beginnings as a railroad town to its recent selection as the site of the 1996 Summer Olympics in their social cultural and economic context Isabelle Gournay then analyzes the major urban and architectural trends from a critical perspective The main body of the book consists of more than twenty architectural tours organized according to neighborhoods or districts such as Midtown Druid Hills West End Ansley Park and Buckhead The buildings described and pictured capture the full range of architectural styles found in the city Here are the prominent new buildings that have transformed Atlanta's skyline and neighborhoods Philip John and John Burgee's revivalist IBM Tower John Portman's taut Westin Peachtree Plaza and Richard Meier's gleaming white paneled High Museum of Art among others Here too are landmarks from another era such as the elegant residences designed in the early twentieth century by Neel Reid and Philip Shutze two of the first Atlanta based architects to achieve national prominence Included as well are the eclectic skyscrapers near Five Points the postmodern office clusters along Interstate 285 and the Victorian homes of Inman Park Easy to follow area maps complement the descriptive entries and photographs a bibliography glossary and indexes to buildings and architects round out the book Whether first time visitors or lifelong residents readers will find in these pages a wealth of fascinating information about Atlanta's built environment **Senate**
