Practical Criticism

Practical Criticism

Ivor Armstrong Richards

Practical Criticism:

Practical Criticism Ivor Armstrong Richards, 1929 Introduces a new kind of documentation to those who are interested in the contemporary state of culture whether as critics as philosophers as teachers as psychologists or merely as curious persons Provides a new technique for those who wish to discover for themselves what they think and feel about poetry and cognate matters and why they should like or dislike it Prepares the way for more efficient educational methods in developing discrimination and the power to understand what we hear and read

Practical Criticism - A Study Of Literary Judgment I. A. Richards, 2011-03-24 I have set three aims before me in constructing this book First to introduce a new kind of documentation to those who are interested in the contemporary state of culture whether as critics as philosophers as teachers as psychologists or merely as curious persons Secondly to provide a new technique for those who wish to discover for themselves what they think and feel about poetry and cognate matters and why they should like or dislike it Thirdly to prepare the way for educational methods more efficient than those we use now in developing discrimination and the power to understand what we hear and read Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork **Literary Theory and Criticism**

Patricia Waugh, 2006 This volume offers a comprehensive account of modern literary criticism presenting the field as part of an ongoing historical and intellectual tradition Featuring thirty nine specially commissioned chapters from an international team of esteemed contributors it fills a large gap in the market by combining the accessibility of single authored selections with a wide range of critical perspectives The volume is divided into four parts Part One covers the key philosophical and aesthetic origins of literary theory while Part Two discusses the foundational movements and thinkers in the first half of the twentieth century Part Three offers introductory overviews of the most important movements and thinkers in modern literary theory and Part Four looks at emergent trends and future directions *Understanding I.A. Richards' Principles of Literary Criticism* Kalika Ranjan Chatterjee, 2002 No Treatment Of Modern Criticism Is Possible Without Discussing I A Richards Since In The Most Literal Sense His Influence Combined With That Of T S Eliot And F R Leavis Served To Create It As One Of Seminal Thinkers Paving The Way For The Development Of New Criticism Richards Made A Systematic Attempt To Formulate A Theory Of Poetry In Consonance With The Demands Of Modern Scientific Thought The Present Book Stems From The Need To Offer An Objective Appraisal Of Richards Thought System In The Context Of The Evolution Of His Ideas In Foundations Of Aesthetics The Meaning Of Meaning Principles Of Literary Criticism Science And Poetry Later Reissued As Poetries And Sciences And Practical Criticism In The Context Of Wide Spread Misinterpretations And Distortions Of Richards Point Of View The Author Has Tried Throughout This Inter Disciplinary Work To Allow Richards To Speak For Himself While Unfolding The Subtle Suggestive And Consistent Nature Of Richards Early Writings The Book Studies His Criticism Of

Modern Poets Like T S Eliot W B Yeats G M Hopkins Thomas Hardy And D H Lawrence The Chapter On Practical Criticism Throws Light On Richards Technique Of Evaluating Poems And Teaches The Art Of Appreciating Poetry **Practical**

Criticism Martin Coyle, John Peck, 1995-11-11 Practical criticism underlies everything students of English literature do It is a way of reading the text closely but with a grasp of the larger issues involved This book is a practical step by step guide which shows the student how to gain a sense of what a poem or passage of prose or drama is about how to analyse it and how to build a successful essay Easy to read and uncluttered by technical vocabulary it will prove an invaluable resource for any student **Creative Writing and the New Humanities** Paul Dawson, 2005 This polemic account provides a fresh

perspective on the importance of Creative Writing to the emergence of the new humanities and makes a major contribution to current debates about the role of the writer as public intellectual **The Practice of Criticism** D. H.

Rawlinson, 1968-11-01 Many people associate practical criticism with a short sighted brand of literary analysis which kills a student's interest in literature by drilling him to concentrate narrowly on verbal detail Handled properly however practical criticism can play a vital part in a literature course especially in the crucial stages in the last years at schools or first university year when many students are coming to literature seriously for the first time This 1968 book is a useful introduction to practical criticism for students It offers an impressive range of closely analysed passages and exercises in prose and verse Mr Rawlinson considers the problems of the beginner and discussed the mistakes and misconceptions that sometimes spoil practical criticism courses In his general discussion of topics such as rhythm tone and imagery the author is careful not to be too abstract throughout the book precept is reinforced by example theory by practice **Literary**

Sociology and Practical Criticism Jeffrey L. Sammons, 1977 **The Craft of Criticism** Allan Rodway, 1982-11-11

Students of literature are not sure of expositions of critical principle or examples of critical practice However the books of theory tend to be both abstruse and remote from literary appreciation while books of practical criticism rarely spell out the principles which underpin them Originally published in 1982 this book attempts to bridge the gap between the theory and practice of criticism The bulk of the book consists of practical critiques of poems of various kinds from various periods that illustrate a variety of critical methods The author does not simply try to match each poem with one method but rather to show how a whole range of distinguishable methods are applicable to most poems though in very different degrees This is a clear and stimulating textbook aimed at educating the literary sensibility After studying this book the reader should be able to approach the assessment of any work of creative literature with greater confidence and competence *Readings in*

English Poetry According to Minimum Unified Syllabus Prescribed by National Education Policy [NEP 2020] - SBPD
