McBride, 2008 Early Childhood Education spans the human life from birth to age 8 Infants and toddlers experience life more holistically than any other age group Social emotional cognitive language and physical lessons are not learned separately by very young children Adults who are most helpful to young children interact in ways that understand that the child is learning from the whole experience not just that part of the experience to which the adult gives attention Although early childhood education does not have to occur in the absence of the parent or primary caregiver this term is sometimes used to denote education by someone other than these the parent or primary caregiver Both research in the field and early childhood educators view the parents as an integral part of the early childhood education process Early childhood education takes many forms depending on the theoretical and educational beliefs of the educator or parent Other terms those are often used interchangeably with early childhood education are early childhood learning early care and early education Much of the first two years of life are spent in the creation of a child's first sense of self or the building of a first identity Because this is a crucial part of children's makeup how they first see themselves how they think they should function how they expect others to function in relation to them early care must ensure that in addition to carefully selected and trained caregivers links with family home culture and home language are a central part of program policy If care becomes a substitute for rather than a support of family children may develop a less than positive sense of who they are and where they come from because of their child care experience This book presents the latest research in this vital field **Trophies, a Harcourt Reading/language Arts Program**, 2003 Contains materials designed to aid students in understanding the stories and lessons in grade 2 of the Trophies a Harcourt reading language art program **Harcourt School Publishers Collections HSP**, 2000 **Te Gr2-1 Theme 1 Coll00** HSP, 2000 Provides students and teachers extensive opportunity to explore a variety of reading materials helps teachers encourage students to become lifelong readers promotes student understanding of literature oral language word identification writing and vocabulary *Te Gr2-1 Theme 3 Coll00* HSP, 2000 Research in Education, 1971-12 **Words on Cassette, 2002** R R Bowker Publishing, 2002 Macworld, 2003 Educators' Advocate, 1991 **Te Gr3-1 Theme 2 Coll00** HSP, 2000 *The Complete Sourcebook on Children's Software* Children's Software Review, 2001-03 5000 critical reviews of CDs videogames smart toys for ages 1 to 16 **Enrichment Math and Reading** MCGRAWHILL □□ □, McGraw-Hill, 2000-07 Books in this series offer advanced math and reading for students excelling in grades 3-6 Lessons follow the same curriculum children are being taught in school while presenting the material in a way that children feel
