Innovations of China's Mainstream Media Convergence Peng Duan, 2022-03-11 This book offers fresh critical insights to the field of media convergence with a particular focus on the mainstream media of China. It begins with an exploration of the emerging change among the entire mediascape: the clear and distinct boundaries that used to demarcate media channels are gradually dissolved, and the widespread introduction and application of new communication technologies have brought both challenges and opportunities toward China. This is followed by a series of theoretical endeavors about the link between conventional media and new media. Drawing on President Xi Jinping's guiding opinions regarding media convergence, this book then analyzes the political task laid upon mainstream media in which challenges may be turned into opportunities. Given its conceptual focus and practical contribution, the book helps media professionals and related government agencies understand the wide variety of changes brought about by media convergence and the new direction for media development.

Cultural Mapping Janet Pillai, 2022-12-08 Cultural mapping is an approach to recording and revealing an integrated picture of cultural character, significance, and workings of a place. The second edition of Janet Pillai's book contains everything you need to know about this process and how to plan and begin your own projects. This guide on Cultural Mapping provides an invaluable resource for everyone interested in having a deeper understanding of the unique character and identity of a historic place and its community. It provides the user with a clear methodology for unraveling the complex and significant elements that make up any human settlement. Step-by-step procedures outline the processes, tools, and techniques for collecting and assessing the cultural assets and resources of a given community. Several illustrated case applications of cultural mapping from Malaysia and Hong Kong have been included to help demonstrate the application of cultural mapping in tourism, conservation, revitalisation, and education projects. This is a remarkable resource which advocates that cultural mapping should be the basis for all urban planning studies to ensure that culturally sensitive and appropriate decisions are made in the planning, management, and development of small and large historic sites and in place-making exercises. A must-use for policy makers, planners, cultural advocates, and leaders. Ar Laurence Loh, Director of Arkitek LLA Sdn Bhd and Think
