Service Characteristics Of Biomedical Materials And Implants Andrew William Batchelor, Margam Chandrasekaran, J R Batchelor, 2004-10-21 A wide variety of materials is being used in biomedical engineering for various functions This includes a range of ceramics polymers and metallic materials for implants and medical devices A major question is how these materials will perform inside the body which is very sensitive to alien materials The material must not only survive to perform its intended function but also not initiate any damage to the surrounding tissue or induce a wider health problem The service characteristics of implanted materials are of vital concern to health treatments that alleviate ageing This book collates information and provides a concise text on the performance of different materials used in devices and implants The knowledge presented is critical for a biomedical engineer especially for the purpose of selecting the right materials In addition topics such as allergies and infection tissue scaffolds and drug delivery are reviewed

Fundamentals and Applications of Biophotonics in Dentistry Anil Kishen, Anand Asundi, 2007 Few people realize that the Comanche Indians were the greatest warring tribe in American history Their forty year battle with settlers held up the development of the new nation Empire of the Summer Moon tells of the rise and fall of this fierce powerful and proud tribe and begins in 1836 with the kidnapping of a lovely nine year old girl with cornflower blue eyes named Cynthia Ann Parker She grew to love her captors and eventually became famous as the White Squaw She married a powerful Comanche chief and their son Quanah became a warrior who was never defeated and whose bravery and military brilliance in the Texas panhandle made him a legend as one of the greatest of the Plains Indian chiefs In this vivid piece of writing S C Gwynne describes in sometimes brutal detail the savagery of both whites and Comanches and despite the distance of time demonstrates how truly shocking these events were juxtaposed against the haunting story of an unforgettable figure of a woman caught between two worlds
