

Open storage units are hung high on the walls and outfitted with adjustable dividers.

Worktable with drawers is the same height as the workbench.

Workbench height allows it to serve as table saw-outfeed support.

Clamp rack is located behind the worktable.

Essential hand tools are within easy reach above the workbench.

Jigs and fixtures are stored close to the table saw.

Modular construction means the chop saw station is adjustable should equipment change.

Drill press and grinder are stored below the chop saw station but are easily removed and clamped to the work surface.

Table saw outfeed table doubles as storage unit for portable power tools.

Router table is attached to the left side of the table saw.

Small cutoffs are tucked below the switch-breaker box.

Mobile bases allow large tools to be relocated easily.

Planer is stored under the table saw and out of the way.

Band saw can be rolled into open areas to handle large stock.
