K. Patell, 1994 Volume VII of the Cambridge History of American Literature examines a broad range of American literature of the past half century revealing complex relations to changes in society Christopher Bigsby discusses American dramatists from Tennessee Williams to August Wilson showing how innovations in theatre anticipated a world of emerging countercultures and provided America with an alternative view of contemporary life Morris Dickstein describes the condition of rebellion in fiction from 1940 to 1970 linking writers as diverse as James Baldwin and John Updike John Burt examines writers of the American South describing the tensions between modernization and continued entanglements with the past Wendy Steiner examines the postmodern fictions since 1970 and shows how the questioning of artistic assumptions has broadened the canon of American literature Finally Cyrus Patell highlights the voices of Native American Asian American Chicano gay and lesbian writers often marginalized but here discussed within and against a broad set of national traditions **The Cambridge History of American Literature: Volume 1, 1590-1820** Sacvan Bercovitch, Cyrus R. K. Patell, 1997-01-28 Volume I of The Cambridge History of American Literature was originally published in 1997 and covers the colonial and early national periods and discusses the work of a diverse assemblage of authors from Renaissance explorers and Puritan theocrats to Revolutionary pamphleteers and poets and novelists of the new republic Addressing those characteristics that render the texts distinctively American while placing the literature in an international perspective the contributors offer a compelling new evaluation of both the literary importance of early American history and the historical value of early American literature **A History of American Literature ...: 1607-1676** Moses Coit Tyler, 1881 **A History of American Literature ...: 1676-1765** Moses Coit Tyler, 1878 **The Cambridge History of American Literature: Volume 2, Prose Writing 1820-1865** Sacvan Bercovitch, Cyrus R. K. Patell, 1994 This is the fullest and richest account of the American Renaissance available in any literary history The narratives in this volume made for a four fold perspective on literature social cultural intellectual and aesthetic Michael D Bell describes the social conditions of the literary vocation that shaped the growth of a professional literature in the United States Eric Sundquist draws upon broad cultural patterns his account of the writings of exploration slavery and the frontier is an interweaving of disparate voices outlooks and traditions Barbara L Packer s sources come largely from intellectual history the theological and philosophical controversies that prepared the way for transcendentalism Jonathan Arac s categories are formalist he sees the development of antebellum fiction as a dialectic of prose genres the emergence of a literary mode out of the clash of national local and personal forms Together these four narratives constitute a basic reassessment of American prose writing between 1820 and 1865 It is an achievement that will remain authoritative for
