**Understanding Marriage, Family, and Intimate Relationships** Jerry D. Lehman, 2005 This introductory textbook is for students who are interested in learning about and establishing healthy marriage family and intimate relationships With divorce rates high and relationships fragile books and courses are needed that help students address important issues regarding relationships The readers of this text examine many important and relevant issues through the lens of theory and research and do so using a

written format that is readable understandable and easy to apply to one's life. It was written so that each chapter has information that readers will find helpful as they attempt to establish and maintain meaningful healthy relationships. There are questions throughout each chapter that help readers focus not only on the material but also on how the material relates to their present and past relationship and family situations. The text provides material on the research of John Gottman, the object relations theory of Harville Hendrix, the solution focused approach of Michele Weiner Davis, and the PREP approach to conflict management of Markman, Stanley, and Blumberg. These and other topics discussed are very relevant to students' concerns and are addressed in greater depth than found in most other texts. The emphasis is not just on couple relationships but also on family relationships. Therefore, in this book, there is extensive coverage of family systems theory and the influence of family rules and family structure on the development of families. There is also material on how change produces transitions in family life that must be assimilated into the family structure, for example, when a couple has their first child. Thus, both couple and family issues are addressed throughout the book. For instructors who want to focus their courses on marriage, family, and intimate relationships, this book would be an ideal choice. A study guide for students and instructional material for instructors can be obtained by visiting [www.understandingrelationships.net](http://www.understandingrelationships.net).

**Unmarried Couples with Children** Paula England, Kathryn Edin, 2007-10-17. Today, a third of American children are born outside of marriage, up from one child in twenty in the 1950s, and rates are even higher among low-income Americans. Many herald this trend as one of the most troubling of our time. But the decline in marriage does not necessarily signal the demise of the two-parent family. Over 80 percent of unmarried couples are still romantically involved when their child is born, and nearly half are living together. Most claim they plan to marry eventually. Yet half have broken up by their child's third birthday. What keeps some couples together and what tears others apart? After a breakup, how do fathers so often disappear from their children's lives? An intimate portrait of the challenges of partnering and parenting in these families. *Unmarried Couples with Children* presents a variety of unique findings. Most of the pregnancies were not explicitly planned, but some couples feel having a child is the natural course of a serious relationship. Many of the parents are living with their child plus the mother's child from a previous relationship. When the father also has children from a previous relationship, his visits to see them at their mother's house often cause his current partner to be jealous. Breakups are more often driven by sexual infidelity or conflict than economic problems. After couples break up, many fathers complain they are shut out, especially when the mother has a new partner. For their part, mothers claim to limit dad's access to their children because of their involvement with crime, drugs, or other dangers. For couples living together with their child, several years after the birth, marriage remains an aspiration, but something couples are resolutely unwilling to enter without the financial stability they see as a *sine qua non* of marriage. They also hold marriage to a high relational standard, and not enough emotional attention from their partners is women's number one complaint. *Unmarried Couples with Children* is a landmark study of the family lives of nearly fifty American children born outside of a marital union.

at the dawn of the twenty first century Based on personal narratives gathered from both mothers and fathers over the first four years of their children s lives and told partly in the couples own words the story begins before the child is conceived takes the reader through the tumultuous months of pregnancy to the moment of birth and on through the child s fourth birthday It captures in rich detail the complex relationship dynamics and powerful social forces that derail the plans of so many unmarried parents The volume injects some much needed reality into the national discussion about family values and reveals that the issues are more complex than our political discourse suggests *Commentaries on the Law of Marriage and Divorce* Bishop,1881 **Mistresses of the Transient Hearth** Robin D. Campbell,2020-10-28 This book explores the ways in which mid 19th Century American army officers wives used material culture to confirm their status as middle class women
