Seven Shades Of Memory Stories Of Old Iran:

Qeshm: The History A Persian Gulf Island Floor Willem,Potts D.T.,2024-11-21 Located in the Straits of Hormuz the island of Qeshm has had a tumultuous history Qeshm The History of a Persian Gulf Island is the first serious book length study of the island s history From the fourteenth century onward the island was an important dependency of the Kingdom of Hormuz often providing drinking water to Hormuz The island remained critical as a source of water and foodstuffs for the Portuguese beginning in the early sixteenth century Throughout the seventeenth century Qeshm remained a bone of contention between Portugal the Dutch and the English East India Companies Later it was a coveted tile in the mosaic of Persian Gulf domination aspired to by the Soltans of Oman despite the pretensions of the Qajar court The natural resources of Qeshm include salt the purest in the Persian Gulf naphtha and firewood From Nader Shah s naval ambitions to the commercial competition of the early twentieth century Qeshm features in innumerable mini crises both local and international In 1935 the British abandoned their coaling station on the island at the insistence of Reza Shah Qeshm s history stands in stark contrast to the popular image of this staid somewhat sleepy island This book brilliantly researched by two of the foremost scholars of Iranian history is essential reading for anyone interested in a region whose strategic political economic and financial importance continues to grow

Tribeswomen of Iran Julia Huang,2014-09-19 Since the revolution in 1979 the Islamic Republic of Iran has permitted very few Western scholars to conduct research in the country Foreign travellers and media persons have limited access and much Iranian scholarship tends to focus on the realms of politics and government Here Julia Huang provides a remarkable account of local tribal Iranian life offering a rare glimpse into the daily rhythms and social richness beyond the capital city of Tehran The Qashqa i are a confederation of nomadic tribes of which the Qermezi Red Ones are one migrating semiannually between winter pastures near the Persian Gulf and summer pastures southwest of the city of Isfahan Huang has visited and traveled with the Qermezi for extended periods across fourteen years Drawing on her experiences participation and observation she offers an intimate window onto their life She focuses on a small group of women spanning four generations who are part of a large extended family and describes their ways of life their activities and interactions and their distinctive sociocultural and ecological setting Like other nomadic peoples around the world the Qashqa i increasingly face pressures that threaten their livelihoods lifestyles and culture Huang shows us how women negotiate compromises between customary tribal values and external influences and sketches their efforts to resist the influences of an Islamizing modernizing and centralizing government With shadows and resonances that rebound across the stories of these women Huang is able to present multiple perspectives on events and contentious issues for instance the politicized issue of women s state mandated modest dress Huang also explains how the Turkic speaking Qashqa i relate to the wider Iranian society and the Islamic Republic of Iran adapting to a rapidly changing world while retaining tribal values and a distinctive ethnolinguistic identity as one of Iran s national minorities In describing life at

the local level in Iran Huang depicts a community largely beyond the scope and reach of foreign travellers and the Western media With rich ethnographic description and analysis intimate portraits of the private lives and spaces of women and children and diverse perspectives this engagingly written account documents a disappearing way of life Tribeswomen of Iran is essential reading for all those interested in Iran the Middle East anthropology nomadism and gender Nomads in Postrevolutionary Iran Lois Beck,2014-09-19 Examining the rapid transition in Iran from a modernizing westernizing secularizing monarchy 1941 79 to a hard line conservative clergy run Islamic republic 1979 this book focuses on the ways this process has impacted the Qashqa i a rural nomadic tribally organized Turkish speaking ethnic minority of a million and a half people who are dispersed across the southern Zagros Mountains Analysing the relationship between the tribal polity and each of the two regimes the book goes on to explain the resilience of the people s tribal organizations kinship networks and politicized ethnolinguistic identities to demonstrate how these structures and ideologies offered the Qashqa i a way to confront the pressures emanating from the two central governments Existing scholarly works on politics in Iran rarely consider Iranian society outside the capital of Tehran and beyond the reach of the details of national politics Local level studies on Iran accounts of the ways people actually lived are now rare especially after the revolution Based on long term anthropological research *Nomads in Postrevolutionary Iran* provides a unique insight into how national level issues relate to the local level and will be of interest to scholars and researchers in Anthropology Iranian Studies and Middle Eastern Studies

Transportation & Technology in Iran, 1800-1940: : Chapar, Carts, Carriages, Automobiles, Bicycles, Motor Cycles, Lodgings, Sewing Machines, Typewriters & Pianos Willem Floor,2023-08-21 Only 100 years ago the main means of transportation in Iran was by quadruped Transportation All these processes are detailed in the book Like cars bicycles and motorcycles also were increasingly used as of the 1920s thus increasing choice in people s mobility More road traffic also implied that travelers needed places to spend the night and eat The change from caravanserais to guest houses and hotels is discussed in part 3 These changes in transportation methods did not come alone for other modern tools of change such as the sewing machine and the typewriter also made their appearance and had a major impact on people s availability and use of time Finally the piano made its entry onto the Iranian musical scene and although not perfectly in tune with the traditional Iranian musical system it is now as much part of music making in Iran as the tar and santur part 4 of the book All these changes and new technologies did not happen overnight or without problems and slow adoption initially was limited to the upper class However with falling prices and changing needs and policies these new technologies eventually reached a larger public and the idea that they once were exotic and out of reach is now inconceivable to Iranians The studies in this book provide a new vantage point and understanding of the transfer of modern technology for scholars of the social economic and cultural history of the Middle East Seven Shades of Memory Terence O'Donnell,2006-09 Terence O Donnell lived in Iran from 1957 71 operating a farm from 196370 before returning to America *Seven Shades of Memory* is his first collection of
