## Seven States Of Matter:

Five Years of Theosophy G. R. S. Mead, 2018-10-16 Probably one of the first considerations which move the worldly minded at present to solicit initiation into Theosophy is the belief or hope that immediately on joining some extraordinary advantage over the rest of mankind will be conferred upon the candidate Some even think that the ultimate result of their initiation will perhaps be exemption from that dissolution which is called the common lot of mankind The traditions of the Elixir of Life said to be in the possession of Kabalists and Alchemists are still cherished by students of Medieval Occultism in Europe The allegory of the Ab e Hyat or Water of Life is still credited as a fact by the degraded remnants of the Asiatic esoteric sects ignorant of the real GREAT SECRET The pungent and fiery Essence by which Zanon renewed his existence still fires the imagination of modern visionaries as a possible scientific discovery of the future Theosophically though the fact is distinctly declared to be true the above named conceptions of the mode of procedure leading to the realization of the fact are known to be false The reader may or may not believe it but as a matter of fact Theosophical Occultists claim to have communication with living Intelligences possessing an infinitely wider range of observation than is contemplated even by the loftiest aspirations of modern science all the present Adepts of Europe and America dabblers in the Kabala notwithstanding But far even as those superior Intelligences have investigated or if preferred are alleged to have investigated and remotely as they may have searched by the help of inference and analogy even They have failed to discover in the Infinity anything permanent but SPACE ALL IS SUBJECT TO CHANGE Madame Blavatsky responds to Subba Row's opinions of the Inner Constitution of Man Tallapragada Subba Row, Helena Petrovna Blavatsky, 2018-01-07 Elohim Phenomenon I. D. McClain, 2013-03-08 This book is a mathematical and scientific portrayal of the creation of the physical universe We examine all the details of forming a neutron the atoms the earth and the galaxies as related to the Torah Unlike most creational science books that biologically attack evolution or focus in on the flood or the big bang theory we build the entire universe from scratch namely nothing After building the microcosm we build the macrocosm and the earth We only touch biology from the standpoint of transition from before and after the fall After structuring the initial universe and earth we examine all the cataclysmic activity that formulates the world as we know it today Truly the reverence for Elohim is the beginning of knowledge and the Torah a light to follow for understanding The reverence for Elohim is like deciding to look at the map for directions The Torah is like the images on the map The Ruach HaKodesh Holy Spirit gives us the ability to understand the images that we see on the map Have you ever wondered how plants survive after Elohim created them before there was a sun to divide day from night Or did you just decide that the whole idea is impossible You Must Win: The winner can create History Ahmed Sayeed, 2019-08-10 The latest book You Must Win contains a similar subject of humans should get freed from the Cage of Theology or Dogmatism My Contention is that The Earth will be it s own when heavens are destroyed The book Human Achievement contain the same message first Know thyself then only you can know the world your society

your fellow being your kith and kins I wish that the Book would enlighten the reader with an advise that when we know nothing of the first Principle it is truly extravagant to define God Angels Heavens and minds to know precisely why God formed world when we do not know why we pray and raise our arms at our will It advocates that Society is a growth in time not syllogism in Logic and when the past is out through the door it comes in at the windows It guides to show precisely by what changes we can diminish misery and injustice in the world in which we actually live A real Human who owns Humanity would automatically reject the story of Adam and Eve Let us live what is provided with and regarding the growth of Human life both physically and psychologically let us leave the matter to Scientists and to socialists Socialist concern must be to lead a life peacefully ethically contently after attaining basic biological and social needs and this may contend as my message as an author to the readers in particular and humanity in general      *Unfolding Consciousness* Edi Bilimoria,2024-03-11

Exploring the Living Universe and Intelligent Powers in Nature and Humans author Edi Bilimoria heralds the new science of consciousness and offers the readers a roadmap and necessary tools to achieve future growth Presented in three volumes plus volume IV contains references resources further reading they reveal the unity of the Eastern and Western branches of our perineal wisdom Bilimoria shows how science seeks truth using a synthesis of both traditions Evidence from a wide range of sources scientific medical philosophical religious and cultural is put forward to argue the case that humans are spiritual beings primarily and not merely complicated biological machines Bilimoria teaches that consciousness is not the product of matter but the primary element from which all else emanates This process and its underlying mechanisms are described in detail with much clarity This work has over 2000 references and is supported by copious tables and diagrams plus individual chapter summaries and sidenotes to assist readers in navigating the multidimensional terrain traversed Key areas The scientific and esoteric worldviews compared and contrasted The ultimate promise of science The soft and hard problems of consciousness How external input to the physical senses results in an internal subjective experience Quantum physics its contribution to a new scientific paradigm The Mystery Teachings of All Ages their worldwide unity and central message Wet computers and computers Is the brain no different in principle from a computer Death and after the transition and continuity of consciousness in other realms Paranormal phenomena and apparitions Subtle bodies Evolution and destiny Powers latent in human beings Divinity and the united message of all world religions The question of immortality The primacy of consciousness and the manner of its unfoldment from the unmanifest realms to the physical world Edi Bilimoria s guest appearance on the Shepherd Walwyn podcast series can be found on this link <https://shepherdwalwyn.com/edi-bilimoria-unfolding-consciousness-why-sapolsky-is-wrong-and-how-to-get-in-tune-with-life>
