Bulletin Adelphi University. Division of Graduate Studies,1893 Seventeenth and Eighteenth Century French Porcelain George Savage,1960 Social and Cultural Dynamics Pitirim Sorokin,2017-09-29 This classic work is a revised and abridged version in a single volume of the work which more than any other catapulted Pitirim Sorokin into being one of the most famed figures of twentieth century sociology Its original publication occurred before World War II This revised version written some twenty years later reflects a postwar environment Earlier than most Sorokin took the consequences of the breakdown of colonialism into account in discussing the renaissance of the great cultures of African and Asian civilization Other than perhaps F S C Northrop no individual better incorporated the new role of the Indian Chinese Japanese and Arabic peoples in this postwar world Sorokin came to view social and cultural dynamics in terms of three major processes a major shift of mankind s creative center from Europe to the Pacific a progressive disintegration of the sensate culture and finally the first blush of the emergence and growth of a new idealistic sociocultural order This volume is perhaps most famous for revealing Sorokin s remarkable efforts to understand the relationship of war and peace to the process of social and political

change Contrary to received wisdom he shows that the magnitude and depth of war grows in periods of social cultural and territorial expansion by the nation In short war is just as often a function of development as it is of social decay This long unavailable volume remains one of the major touchstones by which we can judge efforts to create an international social science There are few areas of social or cultural life that are not covered from painting art and music to the ethos of universalism and particularism These are terms which Sorokin introduced into the literature long before the rise of functional doctrines For all those interested in cultural and historical processes this volume provides the essence of Sorokin's remarkably prescient effort to achieve sociological transcendence by taking *Bulletin of the Public Library of the City of Boston* Boston Public Library, 1895 **Examples of Old Furniture, English and Foreign**, 1898 *The Harvard Echo*, 1880 Daily newspaper published by undergraduates at Harvard College **The Literary Enterprise in Eighteenth-century France** Rémy Gilbert Saisselin, 1979 In this lively and fascinating study of eighteenth century French literary culture Rémy G Saisselin abandons the emphasis on literary genres and the history of ideas that has long characterized traditional literary histories Instead he introduces the concept of literary spaces the library the Temple of Fame and the French version of Grub Street to examine the changing values and expectations associated with a literary career in the Old Regime Each of these major perspectives is analyzed through representative men of letters and their works some like Voltaire are still well known in modern scholarly histories while others are perhaps undeservedly forgotten Saisselin holds that the literary life of eighteenth century France cannot be understood solely in terms of the definitions laid down by the philosophes for literary histories are written according to the point of view that has prevailed Rather his study includes an examination of the entire milieu within which the would be author had to establish himself ranging from publishers to censors to hacks journalists scholars and philosophes The result is witty and humane scholarship which will appeal not only to those with a professional interest in French literature but to lovers of Swift Pope Johnson and the whole world of books and authorship The Bulletin of the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.), 1915 New series v 6 10 include 77th 81 Report of the trustees 1946 50 previously published separately *Announcement Science & Art* University of Michigan.
