Religion is not a science Religion is not a science in the sense physics mathematics and chemistry are sciences But still it is a science because it is the ultimate knowing the word science means knowing And if religion is not a science what else can be It is the highest knowing it is the purest knowing Ordinary science is knowledge not knowing religion is knowing itself Ordinary science is object oriented it knows something hence it is knowledge Religion is not object oriented it has no object it knows nothing Knowing knows itself as if the mirror is reflecting itself It is utterly pure of all content Hence religion is not knowledge but knowing Commemorative Biographical Record of the Counties of Harrison and Carroll, Ohio, Containing
