Seward Walter Stahr, 2012-09-18 From one of our most acclaimed new biographers the first full life of the leader of Lincoln s team of rivals to appear in more than forty years William Henry Seward was one of the most important Americans of the nineteenth century Progressive governor of New York and outspoken U S senator he was the odds on favorite to win the 1860 Republican nomination for president As secretary of state and Lincoln s closest adviser during the Civil War Seward not only managed foreign affairs but had a substantial role in military political and personnel matters Some of Lincoln s critics even saw Seward erroneously as the power behind the throne this is why John Wilkes Booth and his colleagues attempted to kill Seward as well as Lincoln Seward survived the assassin s attack continued as secretary of state and emerged as a staunch supporter of President Andrew Johnson Lincoln s controversial successor Through his purchase of Alaska Seward s Folly and his groundwork for the purchase of the Canal Zone and other territory Seward set America on course to become a world empire Seward was not only important he was fascinating Most nights this well known raconteur with unruly hair and untidy

clothes would gather diplomats soldiers politicians or actors around his table to enjoy a cigar a drink and a good story Drawing on hundreds of sources not available to or neglected by previous biographers Walter Stahr sheds new light on this complex and central figure as well as on pivotal events of the Civil War and its aftermath **Lincoln, Seward, and US Foreign Relations in the Civil War Era** Joseph A. Fry, 2019-04-05 The Civil War marked a significant turning point in American history not only for the United States itself but also for its relations with foreign powers both during and after the conflict The friendship and foreign policy partnership between President Abraham Lincoln and Secretary of State William Henry Seward shaped those US foreign policies These unlikely allies who began as rivals during the 1860 presidential nomination helped ensure that America remained united and prospered in the aftermath of the nation's consuming war In Lincoln Seward and US Foreign Relations in the Civil War Era Joseph A Fry examines the foreign policy decisions that resulted from this partnership and the legacy of those decisions Lincoln and Seward despite differences in upbringing personality and social status both adamantly believed in the preservation of the union and the need to stymie slavery They made that conviction the cornerstone of their policies abroad and through those policies such as Seward threatening war with any nation that intervened in the Civil War they prevented European intervention that could have led to Northern defeat The Union victory allowed America to resume imperial expansion a dynamic that Seward sustained beyond Lincoln's death during his tenure as President Andrew Johnson's Secretary of State Fry's analysis of the Civil War from an international perspective and the legacy of US policy decisions provides a more complete view of the war and a deeper understanding of this crucial juncture in American history *William H.
