Outlines of Christian Ethics John Power Lacroix,1879 *Spirit Mates, Their Origin and Destiny, Sex-life, Marriage, Divorce* James Martin Peebles,1909 **Destiny, or Man's will-means and will-ends. A new critic and logic** Arthur Young,1884 The Spirit World in the Letters of Paul the Apostle Guy Williams,2009 This book provides a comprehensive and critical examination of the role of spiritual beings in the authentic Pauline epistles the first work to give an exhaustive and systematic account in recent years Contrary to the views of many scholars that spirits are trivial or

irrelevant within Paul's writings this monograph argues that they are inherent features of the letters. Read within their historical and cultural context the epistles can be seen to participate in widely held assumptions about the role and influence of spiritual powers. This argument allows for a fresh perspective on a neglected theme allowing for a re-evaluation of aspects of Paul's letters. Part One sets out the problems of interpreting the spirit world with reference to the agendas of modern scholars and ancient readers. Part Two then examines angelology and demonology progressing through the main inhabitants of the Pauline spirit world: angels, Satan, demons, powers etc. Finally Part Three sets out the key thrust of the argument: the spirit world may be regarded as inherent in the letters because it is integrated into major Pauline themes. This thesis is put forward by analysing the role played by spirits in helping to shape three areas of concern for Paul: his Christology, soteriology and sense of community. Such an integrated approach yields a new way of perceiving the place and importance of spirits not as a major or minor doctrine but as an axiomatic and cultural idiom in the Pauline texts.

Sexual Lives: A Reader on the Theories and Realities of Human Sexualities Robert Heasley, Betsy Crane, 2003. This reader provides a social constructionist approach to teaching about sexuality. Its 65 selections combine a range of classic theoretical articles with a large number of original pieces organized to help students understand the ways sexuality influences every aspect of their lives. The reader focuses on the theoretical and the personal stories of people's sexuality. Personal narratives, many written by students, bridge the gap between theory and experience. The book invites the student into thinking about how sexuality itself is constructed as a result of norms, values, beliefs and practices. It weaves together gender and sexuality helping students understand the intersection between the two and the confusion in society when we find people don't easily fit into categories.
