The Challenges of Health Disparities Darren Liu, Betty Burston, Shartriya C. Stewart, Heidi H. Mulligan, 2018-09-11 This unique text explores health disparities in the United States and their implications from the perspective of a health care administration. The book begins with a broad overview of health disparities including definitions from local state and federal legislation as well as alternative definitions. The authors examine current and past frameworks of analysis regarding the causes of disparities and provide a statistical overview of death rates and their implications for health care administrators. In the final section of the book, each chapter looks at health disparities within each type of health care environment such as physician practices, hospitals, pharmaceutical products, Medicare, Medicaid, long term care, insurance markets, and more.

**The Committed Enterprise** Hugh Davidson, 2003-04-02 The Committed Enterprise represents Hugh Davidson's major statement on what makes a sustainable and excellent organization. It is based on over a year of intense fieldwork during which the author interviewed in person the most senior executives in 126 organizations in the US and Europe. It is much easier to describe vision and values than implement them. Vision and values management is in the dark ages compared with that of Marketing, Finance, or Operations. It is often derided and all too often just doesn't work. The Committed Enterprise takes a hard approach to this soft topic and describes how to build unstoppable organizations, whether businesses or charities, hospitals, or orchestras, by managing vision and values scientifically yet creatively. It shows how to lay the foundations for success by understanding the conflicting needs of stakeholders and uniting them through the right vision and values. These forge uncompromising commitment and transform organizations, teams, and countries. Hugh Davidson details Seven Best Practices for making vision and values work every day at every level based on analysis of his interviews with leaders of 125 high-calibre enterprises in USA and UK. These include Design and timing, Linkage to key success factors, Communicating through action, Embedding via appraisal and rewards, Branding the organization, Rigorous measurement. Using a unique fast track scenic route format, the book includes hundreds of examples, quotes, and checklists from enterprises as diverse as PepsiCo, Caltech, Tesco, Mayo Clinic, BP, New York Police Department, DuPont, Save the Children, UPS, New York Philharmonic, and many others. The Committed Enterprise brings a new dimension to managing organisations. It is designed for leaders and managers of every kind of enterprise. So buy it, read it, then make it happen.
