### **Court Government and the Collapse of Accountability in Canada and the United Kingdom** Donald

Savoie, 2008-05-10 There is a consensus throughout much of the western world that the public sector is in urgent need of repair This study seeks to understand why this is so by comparing developments in Canada and the United Kingdom It looks to changes in values both in society and inside government and to the relationships between politicians and civil servants at the top and between civil servants and citizens at the bottom Donald J Savoie argues that both Canada and the UK now operate under court government rather than cabinet government By court government he means that effective power now rests with their respective prime ministers and a small group of carefully selected courtiers For things that matter to prime ministers and their courts the decision making process shifts from formal to informal involving only a handful of actors For things that matter less to them the decision making process is horizontal cumbersome and consultative and involves a multitude of actors from different government departments and agencies as well as a variety of individuals operating outside government Court governments undermine both the traditionally bureaucratic model and basic principles that have guided the development of our Westminster Whitehall parliamentary system Nonetheless Canada and the United Kingdom still cling to accountability requirements better suited to the past and the traditional bureaucratic model Savoie concludes with a call for new accountability requirements that correspond with court government as well as the new relationships between politicians and civil servants and civil servants and citizens

Service in the Field Barbara Wake Carroll, David Siegel, 1998-11-20 As governments attempt to focus more on service delivery it has become apparent that little is known about the people who actually provide the services Barbara Wake Carroll and David Siegel discuss structural issues and analyse the various administrative reforms developed in the last few years They highlight field officers perceptions of the problems in the system and suggest ways to improve field office head office relations and the operation of field offices generally The authors analysis is based on more than two hundred interviews with federal and provincial civil servants in all ten provinces in the smallest hamlets and largest cities across Canada Using extensive quotations from these interviews the authors allow public servants to tell their own stories and in so doing provide examples of the application of systematic qualitative research to Canadian political science With its accessible style and emphasis on personal experience Service in the Field will be of interest to students and scholars of public administration political science organization theory and related disciplines in addition to people in government in both field and head offices

**Whatever Happened to the Music Teacher?** Donald J. Savoie, 2013-03-01 Thirty years ago Anglo American politicians set out to make the public sector look like the private sector These reforms continue today ultimately seeking to empower elected officials to shape policies and pushing public servants to manage operations in the same manner as their private sector counterparts In Whatever Happened to the Music Teacher Donald Savoie provides a nuanced account of how the Canadian federal government makes decisions Savoie

argues that the traditional role of public servants advising governments on policy has been turned on its head and that evidence based policy making is no longer valued as it once was Policy making has become a matter of opinion Google searches focus groups and public opinion surveys where a well connected lobbyist can provide any answers politicians wish to hear As a result public servants have lost their way and are uncertain about how they should assess management performance how they should generate policy advice how they should work with their political leaders and how they should speak truth to political power even within their own departments Savoie demonstrates how recent management reforms in government have caused a steep rise in the overhead cost of government as well as how the notion that public administration could be made to operate like the private sector has been misguided and costly to taxpayers Abandoning textbook discussions of government and public service Whatever Happened to the Music Teacher Is a realistic portrayal of how policy decisions are made and how actors and institutions interact with one another and exposes the complexities contradictions present in Canadian politics and governance Canadian Books in Print.
