Services Trade Liberalisation And Facilitation:

Services Trade Liberalisation and Facilitation Sherry Stephenson, Soonhwa Yi, 2002 Written for service sector policy makers this book describes the key issues related to the World Trade Organization's current round of service negotiations. It discusses the core principles of GATS migration credit for reforms domestic regulation transparency and recognition and regional options. Services Trade Liberalisation Motoshige Itō, Naoki Shimoi, 2003 Asian and Pacific Technology Transfer Handbook - Strategic Information, Regulations, Developments IBP, Inc., 2013-08 2011 Updated Reprint Updated Annually Asian and Pacific Technology Transfer Handbook **OECD Development Pathways Multi-dimensional Review of Thailand (Volume 1) Initial Assessment** OECD, 2018-04-09 The Initial Assessment of this Multi-Dimensional Review endeavors to identify the challenges and key constraints that must be overcome for Thailand to succeed **OECD Economic Surveys: Thailand 2020 Economic Assessment** OECD, 2020-10-05 Thailand has made impressive economic and social progress over several decades. However, the COVID-19 crisis has interrupted this progress. Thanks to its sound macroeconomic policy framework, Thailand was well placed to respond rapidly to the sharp economic downturn. Nevertheless, achieving high income country status will require, in addition to a strong recovery programme, a set of policy reforms focused on productivity growth and human capital accumulation. Thailand has made remarkable progress in expanding access to education and the share of highly educated workers has increased significantly. Nevertheless, because of skills mismatches, substantial labour shortages have prevailed in a range of occupations and industries, which makes it important to improve vocational education and adult training programmes. As the demand for services has become important globally, Thailand has an opportunity to boost its exports of services, diversify its economic activity and therefore become more resilient in the face of unexpected shocks. This would involve a focus on digital services and business-to-business services, which represent a large share of the value of manufacturing products. Focus on human capital, skills, digital technology and high value services would help Thailand resume strong economic growth and social progress after the COVID-19 crisis. **SPECIAL FEATURES HUMAN CAPITAL TRADE IN SERVICES** USITC Publication, 1998 Competitiveness and Private Sector Development Competitiveness in South East Europe A Policy Outlook OECD, 2016-02-26 Future economic development and the wellbeing of citizens in South East Europe (SEE) depend more than ever on greater economic competitiveness. To underpin the drive to improve competitiveness and foster private investment, an integrated policy approach is needed **Economic Analysis and Policy**, 2004 Ten Years of ASEAN Framework Agreement on Services (AFAS) Trí Thành Võ, 2006 **APEC Trade Liberalisation** Seunghye Han, Inkyo Cheong, 1998 Investigates the effect of trade liberalization commitments Asia Pacific Economic Cooperation region on real GDP and export expansion across regions both inside and outside the APEC area **Regulation and Market Access** Alexandra Sidorenko, Christopher Charles Findlay, 2003 Trade in services is growing rapidly spurred by decreased transport costs, technological advances and policy initiatives. Services trade does not face the

same impediments as goods trade Where trade in goods is constrained by the imposition of tariffs on goods imports the trade in services is influenced by regulation and competition policy in the importing country Regulation and Market Access comprehensively presents the theoretical aspects of regulation and market access including the process of achieving good regulation measuring impediments to trade in services and the external effects of domestic competition policies Case studies are presented of regulation and deregulation of major sectors in both developed and developing country contexts including electricity supply airports telecommunications and banking The new frontiers of services trade cross border trade in electronic finance education and health services are also analyzed in depth Increased services trade *Update of Activities Within APEC* Asia Pacific Economic Cooperation (Organization),1998 **Movement of Workers in ASEAN** ,2005

ECMT Round Tables Market Access, Trade in Transport Services and Trade Facilitation European Conference of Ministers of Transport. Economic Research Centre,2007 This event hosted by the Hellenic Institute of Transport Thessaloniki discussed the role of the transport sector in supporting regional economic integration The discussion focused on the following sub topics regional integration in the context of multilateral trade liberalisation the effects on market structure of liberalising international trade in transport services the interaction of the liberalisation of trade in transport services and national competition policies *Trade Facilitation* Aparna Shivpuri,2004 Contributed articles with reference to developing countries coordinated under the program International Working Group on Doha Agenda *United Nations Documents Index* Dag Hammarskjöld Library,2007 The Asia-Pacific Trade Agreement Joong-Wan Cho,Rajan Sudesh Ratna,2016

International trade and investment have enabled many countries in the Asia Pacific region to boost economic growth and have lifted millions out of poverty As the Asia Pacific region continues to thrive economically trade and investment barriers are being dissolved and eliminated As countries begin to depend on each other more trade policy is gradually becoming a useful measure to achieve inclusive and sustainable development Trade and investment are linked to the environment and social issues hence their impacts are also multi dimensional It has now been recognized that sustainable production and consumption are essential for sustainable development Countries realize that they are not able to approach global and regional problems on their own and require cooperation both at the level of government and business As a result the region has been active in concluding regional cooperation frameworks which routinely are centered on trade and investment In the meantime business has forged regional integration through the formation of regional value chains and production networks while governments have paved the way for the expansion of such production networks through the formation of regional trade agreements and economic partnerships Thus the Asia Pacific Trade Agreement APTA which is the oldest preferential trade agreement in the region with a large consumer base can play an important role in filling this gap Given a slow progress in the multilateral negotiations in the WTO especially when the members have started questioning the utility of the negotiations after 15 years and a lack of consensus on how to move forward the regional trade agreements can play a vital

role Even if they pose a challenge to the multilateralism selected liberalisation of trade and economy in present time can become a building block for future multilateral negotiations One of the reasons for the surge in these preferential trade agreements is to make binding commitments on WTO plus and WTO beyond issues While there are many agreements that exist in Asia and the Pacific there is no such attempt to consolidate them in one umbrella framework Understanding the benefits of the consolidation one such initiative was started by ESCAP a few years back The RECI initiate for market integration could well be facilitated by APTA however it cannot deliver unless it transforms itself in a new generation agreement Regional integration and cooperation are also important to meet the 2030 agenda for sustainable development Instead of wasting resources in discussing a new institutional framework it would be more effective to use the existing framework and for the Asia Pacific economies the APTA provides an existing institutional platform The cases discussed in this book prepare a ground for the future and it is expected that all the stakeholders member States of ESCAP private sector as well as researchers would benefit from this publication on APTA South South Regional Integration and Sustainable Development
