Serving The Human Family The Holy See At The Major United Nations:

Religious NGOs at the United Nations Claudia Baumgart-Ochse, Klaus Dieter Wolf, 2018-06-27 Examining the involvement of religious NGOs RNGOs at the UN this book explores whether they polarize political debates at the UN or facilitate agreement on policy issues The number of RNGOs engaging with the United Nations UN has grown considerably in recent years RNGOs maintain relations with various UN agencies member state missions and other NGOs and participate in UN conferences and events This volume includes both a quantitative overview of RNGOs at the UN and qualitative analyses of specific policy issues such as international development climate change business and human rights sexual and reproductive health and rights international criminal justice defamation of religions and intercultural dialogue and cooperation The contributions explore the factors that explain the RNGOs normative positions and actions and scrutinise the assumption that religions introduce non negotiable principles into political debate and decision making that inevitably lead to conflict and division Presenting original research on RNGOs and issues of global public policy this volume will be relevant to both researchers and policy makers in the fields of religion and international relations the United Nations and non state actors and global governance

A Living Tradition A. Alexander Stummvoll, 2018-04-17 On the world stage the Holy See acts as both a religious and a political actor As the head of over 1 2 billion Catholics the pope is a widely recognized spiritual authority Politically the Holy See maintains diplomatic relations with other states and actively participates in international organizations such as the United Nations *A Living Tradition* examines the normative sources and the dilemmas underpinning papal diplomacy It does so in the context of four diverse case studies the Vietnam War John Paul II and Poland the United Nations conferences in Cairo and Beijing and the global campaign for debt relief While Catholic Social Doctrine offers a principled basis for Holy See diplomacy living out religious norms is more complicated than simply preaching them especially in global politics This process leads to political and ethical policy dilemmas as well as to changing patterns of conflict and cooperation with other international actors By drawing upon unpublished archival documents from five countries *A Living Tradition* offers a fresh and interdisciplinary view of both Catholic Social Doctrine and papal diplomacy that explores a key issue of the religious resurgence we are experiencing in the twenty first century how religious traditions function in global politics
