Seven Last Words For The 21st Century:

Sense and Spirituality James McCullough, 2015-10-29 There is growing interest in the relationship between the arts and Christian faith Much has been written about the arts and theology and the place of the arts in church life Not as much has been written however about how the arts might actually advance spiritual formation in terms of the cumulative effect of religious experience and intentional practices This book provides a modest step forward in that conversation a conversation between theological aesthetics and practical theology Understanding aesthetics as the realm of sense perception and spiritual formation as growing capacities to participate in God s purposes James McCullough suggests how these dynamics can mutually enhance each other with the arts as an effective catalyst for this relationship McCullough proposes an analysis of artistic communication and explores exciting examples from music poetry and painting which render theoretical proposals in concrete terms This book will engage both those new to the arts and those already deeply familiar with them **"The"**

The Catholic Periodical and Literature Index ,2005 *Signs of Grace* Kristin Schwain, 2008 Religious imagery was ubiquitous in late nineteenth century American life department stores schoolbooks postcards and popular magazines all featured elements of Christian visual culture Such imagery was not limited to commercial and religious artifacts however for it also found its way into contemporary fine art In *Signs of Grace* Kristin Schwain looks anew at the explicitly religious work of four prominent artists in this period Thomas Eakins F Holland Day Abbott Handerson Thayer and Henry Ossawa Tanner and argues that art and religion performed analogous functions within American culture Fully expressing the concerns and values of turn of the century Americans this artwork depicted religious figures and encouraged the beholders communion with them Describing how these artists drew on their religious beliefs and practices as well as how beholders looked to art to provide a transcendent experience Schwain explores how a modern conception of faith as an individual relationship with the divine facilitated this sanctified relationship between art and viewer This stress on the interior and subjective experience of religion accentuated the artist s efforts to engage beholders personally with works of art how better to fix the viewer s attention than to hold out the promise of salvation Schwain shows that while these new visual practices emphasized individual encounters with art objects they also carried profound social implications By negotiating changes in religious belief by aestheticizing faith in a new particularly American manner these practices contributed to evolving debates about art ethnicity sexuality and gender *The Musical Times and Singing-class Circular* ,1897 **The Churchman** ,1895 *Opera in the Viennese Home from Mozart to Rossini* Nancy November, 2024-01-18 Domestic musical arrangements of opera provide a unique window on the world of nineteenth century amateur music making These arrangements flourished in especially rich variety in early nineteenth century Vienna This study reveals ways in which the Viennese culture of musical arrangements opened up opportunities especially for women for connoisseurship education and sociability in the home and extended the

meanings and reach of public concert life It takes a novel stance for musicology prioritising musical arrangements over original compositions and female amateurs perspectives over those of composers and asks what cultural musical and social functions did opera arrangements serve in Vienna c 1790 1830 Multivalent musical analyses explore ways Viennese arrangers tailored large scale operatic works to the demands and values of domestic consumers Documentary analysis using little studied evidence of private and semi private music making investigates the agency of musical amateurs and reinstates the central importance of women s roles *The Evangelist* ,1899 *Catalogue of mediæval & later antiquities contained in the Mayer museum.
