Seventeenth Century Europe 1598 1715:

The Seventeenth Century ,2001 **The Golden Century** Maurice Ashley,1975 **A Short History of Europe, 1600-1815** Lisa Rosner,John Theibault,2015-03-26 A concise survey that introduces readers to the people ideas and conflicts in European history from the Thirty Years War to the Napoleonic Era The authors draw on gender studies environmental history anthropology and cultural history to frame the essential argument of the work **Das 17. Jahrhundert** Matthias Schnettger,2024-05-06 Das 17 Jahrhundert gilt als eine Epoche der Krisen und Kriege Einige von ihnen wie die Kleine Eiszeit und der Dreißigjährige Krieg zogen den gesamten Kontinent in Mitleidenschaft Andere wie der englische Bürgerkrieg waren eher regional begrenzt Während beispielsweise in der deutschen und spanischen Geschichtsschreibung für das 17 Jahrhundert die Krisen im Vordergrund stehen dominieren in anderen Ländern Narrative der Konsolidierung So spricht man etwa für Frankreich von einem Großen Jahrhundert das wesentlich mit der Stärkung der monarchischen Gewalt während der Regierung Ludwigs XIV verknüpft wird Für die Vereinigten Niederlande ist gar die Rede von einem Goldenen Zeitalter dessen koloniale Grundlagen mittlerweile allerdings kritisch bewertet werden Der zeitliche Zuschnitt des Bandes der die in der deutschen Geschichtswissenschaft gängige Zäsur von 1648 beruht ermöglicht es Krisen Kriege und Konsolidierungen eines langen 17 Jahrhunderts die sonst oft getrennt voneinander behandelt werden im Zusammenhang zu betrachten Die Darstellung gewährt einen Einblick in teils fremd teils vertraut erscheinende gesellschaftliche religiöse wirtschaftliche und politische Strukturen und verfolgt bisweilen widersprüchlich erscheinende Entwicklungen in den verschiedenen europäischen Ländern Der zweite Teil vertieft ausgewählte Aspekte der Darstellung in knappen Forschungsberichten die zugleich die Zeitgebundenheit historischer Forschung offenlegen Dafür stehen etwa die Kontroverse um das Absolutismusparadigma die aufblühenden Forschungen zu herrschenden Frauen oder die Neubewertung des Alten Reichs Die Auswahlbibliographie enthält eine kleine Zusammenstellung von Quelleneditionen und einführenden Werken Iddt aber vor allem zur eigenständigen Lektüre der im Forschungsteil behandelten Literatur ein *Handbook for History Teachers* W. Burston ed'd,Cyril Green,E Nicholas,A Dickinson,D Thompson,2021-12-24 First published in 1972 Handbook for History Teachers is intended to be a general and comprehensive work of reference for teachers of history in primary and secondary schools of all kinds The book covers all aspects of teaching history among them are the use of sources world history art and history principles of constructing a syllabus and the psychological aspects of history teaching The bibliographical sections are arranged on three parts school textbooks a section on audio visual aids and finally books for the teacher and possibly for the sixth form It thoroughly investigates and critiques the various methods employed in teaching history within classrooms and suggests alternatives wherever applicable Diligently curated by the Standing Sub Committee in History University of London Institute of Education the book still holds immense value in the understanding of pedagogy **Europe** Henry Offley Wakeman,2015-06-16 Excerpt from Europe 1598 1715 I have not attempted in the following pages to write the history of

Europe in the seventeenth century in detail The chronicle of events can be found without difficulty in many other works I have therefore endeavoured as far as possible to fix attention upon those events only which had permanent results and upon those persons only whose life and character profoundly influenced those results Other events and other persons I have merely referred to in passing or left out of account altogether such as for instance the history of Portugal and the Papacy the internal affairs of Spain Italy and Russia Following out this line of thought I have naturally found in the development of France the central fact of the period which gives unity to the whole Round that development and in relation to it most of the other nations of Europe fall into their appropriate positions and play their parts in the drama of the world s progress Such a method of reading the history of a complicated period may of course be open to objection from the point of view of absolute historical truth The effort to give unity to a period of history may easily fall into the inaccuracy of exaggeration The picture may become a caricature or so strong a light may be shed on one part as to throw the rest into disproportionate gloom It would be presumptuous in me to claim that I have avoided such dangers About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

European Political Thought 1600-1700 W. M. Spellman, 1999-01-05 The European seventeenth century saw the seeming resolution of two great conflicts Through the nightmares of the Thirty Years War and the British civil wars the murderous religious hatreds that had dominated the previous period finally burnt themselves out Extreme Protestants were defeated expelled contained or subordinated and Catholicism successfully re established itself through much of Europe as the dominant religion Dr Spellman studies all the great political theorists of the century dominated inevitably by Hobbes This book will be invaluable for anyone studying seventeenth century European history it allows those studying the thought of the period to understand the historical context and those studying the military and political events to understand their intellectual underpinning
