## **Sex And Pregnancy In Adolescence:**

**Sex and Pregnancy in Adolescence** Melvin Zelnik, John F. Kantner, Karhleen Ford, 1981      **Teenage Pregnancy and Reproductive Health** Philip Baker, 2007 This book considers the issue of teenage sexuality and pregnancy from historical international and regional perspectives Expert authors question whether teenage pregnancy should be regarded as a social or as an obstetric problem and the roles of diet and nutrition are considered Strategies for reducing teenage pregnancy rates are assessed including sex education contraception and service provision together with evidence for the efficacy of the inventions reviewed Methods of reducing social exclusion among teenage parents and their families such as Sure Start Plus housing education and childcare are discussed Most importantly the perspectives of young women men and parents are included This wide ranging review of the important questions and issues around teenage pregnancy and reproductive health will be of interest and of value not only to members of the RCOG but also to healthcare practitioners in other disciplines for whom the health and welfare of adolescents is of key concern      Pregnancy in Adolescence Irving R. Stuart, Carl F. Wells, 1982      **Teenage Pregnancy Issues** United States. Congress. House. Committee on Ways and Means. Subcommittee on Public Assistance and Unemployment Compensation, 1985      **Teenage Sexuality, Pregnancy, and Childbearing** Frank F. Furstenberg, Richard Lincoln, Jane Menken, 1981 Examining the social consequences of teenage childbearing the editors explain the effects on adolescent parents themselves their offspring and their families and discuss ways of preventing or tempering those effects Why have Americans suddenly become troubled about teenage sexuality pregnancy and childbearing These are not new problems certainly and the birthrate among teenagers even the youngest of them has been declining for some years What has aroused public concern according to the editors of these essays is the increased visibility of the problem The pregnant teenager is no longer expelled from school and forced to marry or discreetly bear a child out of wedlock She has the option of abortion and even if she decides to have the child she is even more likely not to marry Thus the sensitivity of Americans to the issues of abortion and illegitimacy is inexorably linked to their concern about adolescent sexuality and pregnancy The attention focused on the problem has resulted in a considerable amount of research on the causes and consequences of teenage pregnancy and on the means of preventing it Over the past decade Family Planning Perspectives has published much if not most of the research on the causes consequences and means of coping with problems associated with teenage pregnancy and childbearing From about 100 articles the editors have selected 28 key reports that illuminate the issue for scholars students and professionals who work with young people in various settings The contributors to the first section examine historical trends in regard to teenage sexual activity use of contraception and abortion pregnancy and childbirth in and out of wedlock in the context of other changes in social structure and mores The second section assesses the serious adverse consequences of early childbearing on the young people involved on their children and on society The third section looks into what courses of action are practicable to help teenagers avert the pregnancies and births

they do not wish to have and to cope with problems resulting from early childbearing The final section evaluates current programs and materials designed to help teenagers prevent unwanted pregnancies or deal with pregnancy when it occurs it also reviews the state of the law involving contraception abortion and pregnancy among teenagers The book includes an overview and section introductions by the editors which draw together the implications of the contributions and those of other investigators who have written on this subject All articles as well as the editors contributions are followed by extensive up to date bibliographies

**Adolescent Sexuality and Teenage Pregnancy** Carolina Population Center. State Services Office,1976 138 selected references to journal articles and books published before 1976 Intended for human services providers and school personnel Citations arranged under broad topics e g Adolescent sexuality Adolescent fathers and Adolescents and contraception Each section also contains introductory material Entry gives bibliographical information and brief annotation No index

Community Health Nursing Karen Saucier Lundy,Sharyn Janes,2009 Historically community health nursing has responded to the changing health care needs of the community and continues to meet those needs in a variety of diverse roles and settings Community Health Nursing Caring for the Public s Health Second Edition reflects this response and is representative of what communities signify in the United States a unified society made up of many different populations and unique health perspectives This text provides an emphasis on population based nursing directed toward health promotion and primary prevention in the community It is both community based and community focused reflecting the current dynamics of the health care system The Second Edition contains new chapters on disaster nursing and community collaborations during emergencies The chapters covering Family health ethics mental health and pediatric nursing have all been significantly revised and updated

Adolescent Sexuality and Pregnancy Patricia Voydanoff,Brenda W. Donnelly,1990-08 This is a survey of the current literature on teenage pregnancy and related questions of adolescent sexuality contraception abortion and childbearing Covering not only the demographic social psychological and family issues surrounding this topic the authors also explore more applied areas such as health consequences policy concerns and prevention programmes aimed at alleviating the problem

The Politics of Pregnancy Annette Lawson,Deborah L. Rhode,1993-01-01 Teenage pregnancy is widely viewed as a significant social problem This book argues that much of the problem stems from inaccurate perceptions of what the problem is The problem according to the text is not teenagers who want sex too soon but a society that offers too little too late

*Teenage Sexuality, Pregnancy, and Childbearing* Frank F. Furstenberg,Richard Lincoln,Jane Menken,1981 Examining the social consequences of teenage childbearing the editors explain the effects on adolescent parents themselves their offspring and their families and discuss ways of preventing or tempering those effects Why have Americans suddenly become troubled about teenage sexuality pregnancy and childbearing These are not new problems certainly and the birthrate among teenagers even the youngest of them has been declining for some years What has aroused public concern according to the editors of these essays is the increased visibility of the

problem The pregnant teenager is no longer expelled from school and forced to marry or discreetly bear a child out of wedlock She has the option of abortion and even if she decides to have the child she is even more likely not to marry Thus the sensitivity of Americans to the issues of abortion and illegitimacy is inexorably linked to their concern about adolescent sexuality and pregnancy The attention focused on the problem has resulted in a considerable amount of research on the causes and consequences of teenage pregnancy and on the means of preventing it Over the past decade Family Planning Perspectives has published much if not most of the research on the causes consequences and means of coping with problems associated with teenage pregnancy and childbearing From about 100 articles the editors have selected 28 key reports that illuminate the issue for scholars students and professionals who work with young people in various settings The contributors to the first section examine historical trends in regard to teenage sexual activity use of contraception and abortion pregnancy and childbirth in and out of wedlock in the context of other changes in social structure and mores The second section assesses the serious adverse consequences of early childbearing on the young people involved on their children and on society The third section looks into what courses of action are practicable to help teenagers avert the pregnancies and births they do not wish to have and to cope with problems resulting from early childbearing The final section evaluates current programs and materials designed to help teenagers prevent unwanted pregnancies or deal with pregnancy when it occurs it also reviews the state of the law involving contraception abortion and pregnancy among teenagers The book includes an overview and section introductions by the editors which draw together the implications of the contributions and those of other investigators who have written on this subject All articles as well as the editors contributions are followed by extensive up to date bibliographies

Sex and Pregnancy in Adolescence Melvin Zelnik, John F. Kantner, Kathleen Ford, 1981-11 This book is a good resource for any senior level social science undergraduate who understands basic statistics and for graduate students in sociology population studies and social work who are interested in teenage sex and pregnancy Choice October 1982 This book represents the detailed report of the well known 1971 and 1976 national surveys of adolescent premarital sexual behavior contraceptive use and pregnancy outcome For those who wish further understanding of the history design sample selection methodology and validity of these classic studies here it is Journal of Adolescent Health Care Vol 4 No 2 June 1983 This is an important book that carefully traces the difficult and

**Risking the Future** Panel on Adolescent Pregnancy and Childbearing, National Research Council, Cheryl D. Hayes, 1987-01-15 Abstract This book presents the findings conclusions and recommendations of the Committee on Child Development Research and Public Policy within the National Research Council The panel examined research and existing programs which address the areas of adolescent sexuality pregnancy and childbearing with the intent of making recommendations for policy making program design program evaluation and research The panel s report is presented in chapters addressing the following topics trends in adolescent sexuality and fertility society and changing roles of adolescents determinants of sexual behavior effects of adolescent

childbearing interventions and priorities for data collection research policies and programs An accompanying volume contains the working papers on which the report was based The working papers address three broad areas which are 1 influences on early sexual and fertility behavior 2 consequences of early sexual and fertility behavior and 3 programs and policies related to teen pregnancy and sexuality

**Encyclopedia of Clinical Child and Pediatric Psychology** Thomas H. Ollendick, Carolyn S. Schroeder, 2012-12-06 The Encyclopedia of Clinical Child and Pediatric children adolescents and their families with a focus on Psychology is intended to be an authoritative and comprehensive understanding preventing diagnosing and treating psychological cognitive emotional developmental comprehensive resource that provides up to date information on a broad array of problems and issues related to behavioral and family problems of children Of particular children adolescents and their families as defined by their importance to clinical child psychologists is in the fields of clinical child and pediatric psychology It is understanding of the basic psychological needs of children and the social contexts that influence child development designed to be of particular interest and use to laypersons parents and grandparents and undergraduate and development and adjustment Thus typical and atypical graduate students in training as well as diverse medical development and the impact of life stresses are of interest and mental health professionals who live with and or concern for the clinical child psychologist work with young persons but who have limited information on a particular topic The specialty of pediatric psychology like clinical child psychology is interested in the psychological needs of children but the focus is on the psychosocial aspects range of topics is included that cover typical and atypical of illness

**Teenage Pregnancy** Andrew L. Cherry Jr., Mary E. Dillon, Douglas Rugh, 2001-09-30 Teenage pregnancy is a worldwide problem that accompanies the initiation of sexual activity at increasingly younger ages This unique reference resource provides students with cross cultural comparisons of the issues associated with teenage pregnancy How do different cultures deal with this problem How has the problem changed in recent years What programs have been initiated to try to control the problem Answers to these and other questions for fifteen different countries are explored in detail to give a global perspective and to challenge students to think about how the problem should be addressed The fifteen countries represented have been carefully chosen to represent the different regions of the world Student researchers can use this resource to study the similarities that cross national and regional boundaries despite the varying needs and experiences of adolescents around the world By understanding the history of teenage pregnancy and how it is viewed both socially and politically in each of the countries students can come to an understanding of how it affects the world what its dangers are and how we can come up with a comprehensive strategy for preventing and coping with it everywhere

**International Handbook of Adolescent Pregnancy** Andrew L. Cherry, Mary E. Dillon, 2014-01-13 The rates are on the decline worldwide But adolescent pregnancies still occur placing millions of girls each year at risk for medical complications and social isolation and their babies for severe health problems especially when prenatal care is inadequate or nonexistent But as the opportunity for

young women and girls increases around the world adolescent pregnancy will continue to decline Featuring reports from countries across the developed and developing worlds the International Handbook of Adolescent Pregnancy analyzes the scope of the problem and the diversity of social and professional responses Its biological ecological perspective identifies factors influencing childhood pregnancy as well as outcomes challenges and needs of very young mothers as they differ across nations and regions Salient comparisons are made as cultural contexts and community support vary widely and attention is paid to issues such as child marriage LGBT concerns and the impact of religion and politics on health care particularly access to contraception abortion and other services This global coverage heightens the understanding of readers involved in care education and prevention programs and otherwise concerned with the psychosocial development reproductive health and general well being of girls Included in the Handbook Biological influences of adolescent pregnancy Adolescent maternal health and childbearing Adolescent pregnancy and mental health International perspectives on adolescent fathers Adolescent pregnancy as a feminist issue Adolescent pregnancy as a social problem Plus viewpoints from more than thirty countries As a unique source of up to date findings and clear headed analysis the International Handbook of Adolescent Pregnancy is a go to reference for practitioners and researchers in maternal and child health pediatrics adolescent medicine and global health     Adolescent Sex, Contraception, and Childbearing Kristin A. Moore,1995
