*Routledge International Handbook of Masculinity Studies* Lucas Gottzén, Ulf Mellström, Tamara Shefer, 2019-11-20. The Routledge International Handbook of Masculinity Studies provides a contemporary critical and scholarly overview of theorizing and research on masculinities as well as emerging ideas and areas of study that are likely to shape research and understanding of gender and men in the future. The forty-eight chapters of the handbook take an interdisciplinary approach to a range of topics on men and masculinities related to identity, sex, sexuality, culture, aesthetics, technology, and pressing social issues. The handbook's transnational lens acknowledges both the localities and global character of masculinity. A clear message in the book is the need for intersectional theorizing in dialogue with feminist, queer, and sexuality studies in making sense of men and masculinities. Written in a clear and direct style, the handbook will appeal to students, teachers, and researchers in the social sciences and humanities as well as professionals, practitioners, and activists.

Leading scholars are given the space to explore their subject in provocative ways and map out the potential directions of travel. They are relevant but also visionary. This book provides a critical assessment of key areas of urban scholarship. In twelve stimulating chapters, expert contributors examine a range of important, pressing topics from sustainability and gentrification to feminist interventions and globalization to security and food issues. Six more regionally informed expert reviews examine recent urban research in sub-Saharan Africa, South America, East Asia, the Middle East, Australia, and Eastern Europe. The chapters provide polemical assessments and signposts for future research. The book will be an indispensable and accessible guide to urban research across the globe.
