sexual violence and domestic abuse as separate and distinct. Numerous studies have shown however that these fields may not be so neatly pigeonholed as once believed. Statistics indicate that there is an overlap in both the level and type of violence experienced.

**The Publishers Weekly**, 1897      Understanding Child Molesters Eric Leberg, 1997 Written primarily for non professionals who may be families, co workers or acquaintances of child molesters the author discusses how these offenders use denial, blaming, secrecy and manipulation not only to set up their victim but also to mislead families and friends about what is occurring. Chapters 7 to 10 provide strategies to counter this manipulation and to make it harder for the molester to reoffend.

**Sex Crimes** Ronald M Holmes, Stephen T Holmes, 2002 This is a revision of the popular and successful introduction to sex crimes text. This edition includes much new material, 4 new chapters plus updating throughout. It also includes numerous first person accounts from offenders who reflect on their crimes and treatments are included in special features of the book. The length of the book makes it ideal to be used in conjunction with other texts in sex crimes, deviance and criminal behavior courses. First person accounts from offenders, brief case studies offer insights into the motivation for the behavior and effect of the attempted treatments. Writing style and level: students enjoyed reading the first edition, often reading ahead of the syllabus because the authors don't try to drown them in research and data.

**Pedophilia and Sexual Offending Against Children** Michael C. Seto, 2008 Contrary to popular belief not all sex offenders who target children are pedophiles and not all pedophiles commit sexual offenses. But what is unequivocal is that pedophilia, which is defined as a persistent sexual interest in prepubescent children, is an emotionally charged and controversial topic. Parents are understandably worried about the safety and well being of their children and want to protect them from being sexually exploited. Mental health and criminal justice professionals want to learn more about the assessment methods and intervention techniques that are available to develop and implement effective policies and practices. In this book, author Michael C. Seto addresses key concerns and questions in dealing with these clinical populations: How can pedophilia be detected? What causes pedophilia and sexual offending against children and what is the relationship between the two? How do we assess risk to sexually offend? Finally, what do we know about intervention and prevention to reduce the occurrence of sexual offenses against children? In addition to a comprehensive synthesis of theory and research, the author demonstrates how this knowledge informs current treatment practices with the inclusion of illustrative case examples, sample interview questions, assessment tools and online resources.
