Sex On The Screen The 80s:

Pornography and Difference Berkeley Kaite, 1995-11-22 This study of pornographic magazine photographs softcore hardcore transsexual transvestite analyzes the visual code of these images It engages questions about masculinity and masculine sexuality such as Is there a necessary relation between difference and phallic desire Can the masculine subject imagine otherness Is there a will to asceticism in this masculine sexual surrender to indifferentiation **From Sappho to De Sade (Routledge Revivals)** Jan N. Bremmer, 2014-06-27 The history of sexuality has been the subject of increased interest in recent years and more widely acknowledged importance in the interpretation of past mentalities Yet historians have only recently begun to study sexual practices in any depth establishing that sexuality is not a biological constant but an ever changing phenomenon continuously shaped by people themselves The contributors to this interdisciplinary collection bring their expertise in ancient as well as medieval history anthropology modern history and psychology to bear upon the history of sexuality They explore various aspects of sexuality in successive periods pederasty and lesbian love in antiquity incest in the Middle Ages sexual education during the Dutch Republic voyeurism in the rococo prostitution in Vienna around 1900 and the invention of sexology From Sappho to De Sade first published in 1989 offers an informative and entertaining collection of essays for students of cultural anthropology social history and gender studies *The Depiction of Adolescent Sexuality in Motion Pictures 1930-1980* David M. Considine, 1981 **Storytelling in World Cinemas** Lina Khatib, 2013-01-31 Storytelling in World Cinemas Vol 2 Contexts addresses the questions of what and why particular stories are told in films around the world both in terms of the forms of storytelling used and of the political religious historical and social contexts informing cinematic storytelling Drawing on films from all five continents the book approaches storytelling from a cultural historical multidisciplinary perspective focusing on the influence of cultural politics postcolonialism women's social and cultural positions and religious contexts on film stories Like its sister volume Storytelling in World Cinemas Vol 1 Forms this book is an innovative addition to the academic study of world cinemas **Sex Education in the Eighties** Lorna Brown, 1981-11-30 The odd reader here in England odd means occasional may be interested in how a book comes about Members of the SIECUS Board of Directors were planning a Festschrift and dinner for Mary Calderone on the occasion of her 75th birthday One planning idea was to have a booklet filled with brief essays from prominent sex educators distributed between the roast beef and the ice cream My reaction was that such souvenirs find their burial place in the same dusty drawer as the program from the high school prom and ticket stubs from South Pacific I suggested a more lasting noticeable monument a proper as the English say book which would draw contributions from both SIECUS and non SIECUS scholars I was too clever to be trapped as editor in a 1974 preface I had written I swore I wouldn't edit another book And so I seduced Lorna Brown into being editor I contacted a few potential contributors suggested a few others convinced Leonard Pace at Plenum Press that this was a worthwhile venture and left the country To my amazement six months after settling in

Cambridge England the rough draft of the book arrived along with a reminder from Lorna that during the seduction I had promised to write an Introduction

Generation Multiplex Timothy Shary, 2002-11

Generation Multiplex represents an important contribution to our understanding of the relationship between youth and the mass media in this case movies

From both a personal and a professional perspective I welcome this work which builds on themes and issues I addressed in *The Cinema of Adolescence* in 1985

From the Foreword When teenagers began hanging out at the mall in the early 1980s the movies followed

Multiplex theaters offered teens a wide array of perspectives on the coming of age experience as well as an escape into the alternative worlds of science fiction and horror

Youth films remained a popular and profitable genre through the 1990s offering teens a place to reflect on their evolving identities from adolescence to adulthood while simultaneously shaping and maintaining those identities

Drawing examples from hundreds of popular and lesser known youth themed films Timothy Shary here offers a comprehensive examination of the representation of teenagers in American cinema in the 1980s and 1990s

He focuses on five subgenres school delinquency horror science and romance sexuality to explore how they represent teens and their concerns how these representations change over time and how youth movies both mirror and shape societal expectations and fears about teen identities and roles

He concludes that while some teen films continue to exploit various notions of youth sexuality and violence most teen films of the past generation have shown an increasing diversity of adolescent experiences and have been sympathetic to the particular challenges that teens face
