Sex Positives Cultural Politics Of Dissident Sexualities:

Sex Positives? Thomas Foster, Carol Siegel, Ellen E. Berry, 1997 The feminist pornography debates are centered around the opposition between pro censorship factions and the pro sex radicals or sex positives But what exactly is the relationship between these debates and postmodern theories of reading and performativity What happens to these debates when they are placed in the context of colonial or U S racial histories What is the history behind today s sexual radicalism How radical is it In the first section of *Sex Positives* Nicola Pitchford Naomi Morgenstern Victoria L Smith and Gabrielle N Dean focus on the recent sex wars in U S feminism especially within lesbian culture Elissa J Rashkin Gaurav Desai and James Smalls broaden the terms of the sex wars debates in the second section to include sexualized racial and colonial representations from Chicana African and African American perspectives Finally Sander L Gilman Laura Ciolkowski and Laura Frost explore a variety of historical contexts for understanding contemporary forms of sexual representation and the repression of such representations

Sex Drives Laura Frost, 2018-08-06 Salvador Dal s autobiography confesses that Hitler turned me on in the highest while Sylvia Plath maintains that every woman adores a Fascist Susan Sontag s famous observation that art reveals the seamier side of fascism in bondage discipline and sexual deviance would certainly appear to be true in modernist and postwar literary texts How do we account for eroticized representations of fascism in anti fascist literature for sexual desire that escapes the bounds of politics Laura Frost advances a compelling reading of works by D H Lawrence Virginia Woolf Jean Genet Georges Bataille Marguerite Duras and Sylvia Plath paying special attention to undercurrents of enthrallment with tyrants uniforms and domination She argues that the first generation of writers raised within psychoanalytic discourse found in fascism the libidinal unconscious through which to fantasize acts including sadomasochism and homosexuality not permitted in a democratic conception of sexuality without power relations By delineating democracy s investment in a sexually transgressive fascism an investment that persists to this day Frost demonstrates how politics enters into fantasy This provocative and closely argued book offers both a fresh contribution to modernist literature and a theorization of fantasy

Screening Gender Heike Paul, 2007 *Out in Africa* Chantal J. Zabus, 2013 Homosexuality was and still is thought to be quintessentially un African Yet in this book Chantal Zabus examines the anthropological cultural and literary representations of male and female same sex desire from early colonial contacts between Europe and Africa in the nineteenth century to the present Covering a broad geographical spectrum from Mali to South Africa and from Senegal to Kenya and adopting a comparative approach encompassing two colonial languages English and French and some African languages *Out in Africa* charts developments in Sub Saharan African texts and contexts through the work of 7 colonial and some 25 postcolonial writers

Public Rape Tanya Horeck, 2013-04-15 Second wave feminism fought to end the blanket silence shrouding rape and bring it to public attention Now feminist critics must confront a different issue In *Public Rape* Tanya Horeck considers the public investment in images of rape and the figure of the raped woman Introducing the idea of

public rape Horeck looks at how images of rape serve as cultural fantasies of sexual racial and class difference Looking at rape in real life as well as in literature and films such as *The Accused* and *Boys Don't Cry* Horek reveals how representations of rape raise vital questions about the relationship between reality and fantasy and between violence and spectacle

Beauty is in the Street Joachim C. Häberlen, 2023-10-05 A rich and readable account of left wing activism in the West and opposition to Soviet style communism in the East Katja Hoyer *The Spectator* A dream perhaps but one that still sounds worth fighting for even beautiful Stuart Jeffries *The Observer* An ambitious and masterly account of utopian protest in Europe Fast paced with an eye for telling detail and written with a light touch Robert Gildea In post war Europe protest was everywhere On both sides of the Iron Curtain from Paris to Prague Milan to Wroclaw ordinary people took to the streets fighting for a better world Their efforts came to a head most dramatically in 1968 and 1989 when mass movements swept Europe and rewrote its history In the decades between Joachim C H berlen argues new movements emerged that transformed the nature of protesting Activism moved beyond traditional demonstrations from squatting to staging happenings and camping out at nuclear power plants People protested in the way they dressed the music they listened to the lovers they slept with the clubs where they danced all night New movements were born notably anti racism women's liberation gay liberation and environmentalism And protest turned inward as activists experimented with new ways of living and feeling from communes to group therapy in their efforts to live a better life in the here and now Some of these struggles succeeded others failed But successful or not their history provides a glimpse into roads not taken into futures that did not happen The stories in H berlen's book invite us to imagine different futures to struggle to fail and to try again In a time when we are told that there are no alternatives they show us that there could be another way

Queer Theory Joan Nordquist, 1997 *Postcolonial and Queer Theories* John Charles Hawley, 2001-02-28 Since the 1960s American and Western European gays have set the agenda for sexual liberation and defined its emergence Western models of homosexuality often provide the only globally recognizable frameworks for discussing gay and lesbian cultures around the world and thus Western interpretive schemes are imposed on non Western societies At the same time gay and lesbian lifestyles in emerging countries do not always neatly fit Western paradigms and data from those countries often clash with dominant Western models So too the literature of emerging countries often depicts homosexuality in ways which challenge the existing tools of Western literary critics The thirteen contributors to this book examine the implied imposition of a heavily capitalistic white and generally male model of homosexuality on the emerging world By combining postcolonial and queer theoretical approaches this volume suggests alternative frameworks for describing sexuality around the world and for exploring non Western literary representations of gay and lesbian lifestyles The volume concludes with a chapter assessing new questions in both postcolonial and queer theorizing that suggest common concerns and many avenues for future research
