*Sex and Culture* Joseph Daniel Unwin,1934      **The SAGE Encyclopedia of Children and Childhood Studies** Daniel Thomas Cook,2020-04-20 This four volume encyclopedia covers a wide range of themes and topics including Social constructions of childhood Children s rights Politics representations geographies Child specific research methods Histories of childhood Transnational childhoods Sociology anthropology of childhood theories and Theorists key concepts This interdisciplinary encyclopedia will be of interest to students and researchers in Childhood studies Sociology Anthropology Psychology Education Social Welfare Cultural studies Gender studies Disability studies      **Sex in Civilization** Victor Francis Calverton,Samuel Daniel Schmalhausen,1929 Several pages on homosexuality see index      **Marginal Groups and Mainstream American Culture** Yolanda Estes,2000 They are often portrayed as outsiders ethnic minorities the poor the disabled and so many others all living on the margins of mainstream society Countless previous studies have focused on their pain and powerlessness but that has done little more than sustain our preconceptions of marginalized groups Most accounts of marginalization approach the subject from a distance and tend to overemphasize the victimization of outsiders Taking a more intimate approach this book reveals the personal moral and social implications of marginalization by drawing upon the actual experiences of such individuals Multidisciplinary and multicultural *Identity on the Margin* addresses marginalization at a variety of social levels and within many different social phenomena going beyond familiar cases dealing with race ethnicity and gender to examine such outsiders as renegade children conservative Christians and the physically and mentally disabled And because women are especially subject to the effects of marginalization feminist concerns and the marginalization of sexual practices provide a common denominator for many of the essays From problems posed by complimentary racism to the status of gays in Tony Blair s England from the struggle of Native Americans to preserve their identities to the singular problems of single mothers *Identity on the Margin* takes in a broad spectrum of cases to provide theoretical analysis and ethical criticism of the mechanisms of identity formation at the edges of society In all of the cases the authors demonstrate the need for theory that initiates social change by considering the ethical implications of marginalization and criticizing its harmful effects Bringing together accounts of marginalization from many different disciplines and perspectives this collection addresses a broad audience in the humanities and social sciences It offers a basis for enhancing our understanding of this process and for working toward meaningful social change      Sexuality and Modern Western Culture Carolyn Janice Dean,1996 In this study Carolyn J Dean focuses on the transformation of sexuality and its changing role in gender relations politics and culture In Dean s view a history of sexuality by necessity is a history of the

changing relationship between sex and gender that is between our anatomy and our cultural expectations of what it means to be a man or woman Dean examines how turn of the century concerns about deviant sexual behavior and the changing role of women in society led to a radical restructuring of sex gender connections in the early part of the 20th century Her review of debates on pornography obscenity homosexuality and the role of women demonstrates how many of the pressing issues from the beginning of this century continue to haunt us at its end Sexuality and Modern Western Culture makes a significant contribution to the nascent field of sexuality studies bringing an innovative feminist approach to the current discussion of the body and the modern self Dean s study is clear concise and comprehensive It combines empirical research theoretical sophistication and historiographical contextualization showing how cultural and intellectual history can be combined to illuminate an important and complex topic of pressing moral political and aesthetic concern      *Radical Critiques of the Law* Stephen M. Griffin, Robert C. L. Moffat, 1997 The past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of American law and the institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting *Radical Critiques of the Law* is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best      *Collected Studies in Criminological Research* ,1982      *Collected Studies in Criminological Research* European Committee on Crime Problems,1982      **Juvenile Delinquency** Larry J. Siegel, Joseph J. Senna, 1985 New edition of a text that explores the most current theories on the causes of juvenile crime the latest strategies being used to control it and recent research studies and

policy initiatives Siegel U of Massachusetts and Senna Northeastern U discuss the concepts and theories of delinquency environmental influences juvenile justice advocacy controlling juvenile offenders and juvenile corrections Boxed sections cover the most important legal cases that shape the system Supreme Court cases and important programs and policy initiatives that are now being used to help children in need Each chapter begins with a real life story that illustrates a relevant personal dilemma Includes 200 plus photos tables and charts Annotation copyrighted by Book News Inc Portland OR

**Feminism and the Politics of Literary Reputation** Charlotte Templin, 1995 Soon after its publication in 1973 *Fear of Flying* brought Erica Jong immense popular success and media fame Alternately pegged sassy and vulgar Jong's novel embraced the politics of the women's liberation movement and challenged the definition of female sexuality Yet today more than twenty years and several books later literary reputation continues for the most part to elude Jong Typecast by her adversaries as a media seeking sensationalist Erica Jong has been unfairly side stepped by academia Charlotte Templin contends In this carefully researched study augmented by personal interviews with Jong Templin assembles and analyzes the medley of responses to Jong's books by reviewers critics writers academics and the media by liberals conservatives and feminists She examines the diverse opinions on the merit and relevance to contemporary life of *Fear of Flying* the invocation of a high culture low culture dichotomy to discredit *How to Save Your Own Life* the anatomy of literary success with Fanny Jong's reception in a postfeminist age and the trivialization of Jong's works that is inevitable with mass media exposure Templin also shows how antagonistic reviewers tend to identify Jong with her fictitious characters a practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman In turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time The first book to make a detailed examination of the reputation of a woman writer *Feminism and the Politics of Literary Reputation* provides an excellent case study for the literary reception of women writers within a broad cultural context Templin's analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores
