Sex Laws Stereotypes:

Sex, Laws & Stereotypes N. Elizabeth Fried, 1995 Gender Stereotyping Rebecca J. Cook, Simone Cusack, 2011-07-19
Drawing on domestic and international law as well as on judgments given by courts and human rights treaty bodies Gender Stereotyping offers perspectives on ways gender stereotypes might be eliminated through the transnational legal process in order to ensure women's equality and the full exercise of their human rights A leading international framework for debates on the subject of stereotypes the Convention on the Elimination of All Forms of Discrimination against Women was adopted in 1979 by the UN General Assembly and defines what constitutes discrimination against women It also establishes an agenda to eliminate discrimination in all its forms in order to ensure substantive equality for women Applying the Convention as the primary framework for analysis this book provides essential strategies for eradicating gender stereotyping Its proposed methodology requires naming operative gender stereotypes identifying how they violate the human rights of women and articulating states obligations to eliminate and remedy these violations According to Rebecca J Cook and Simone Cusack in order to abolish all forms of discrimination against women priority needs to be given to the elimination of gender stereotypes While stereotypes affect both men and women they can have particularly egregious effects on women often devaluing them and assigning them to subservient roles in society As the legal perspectives offered in Gender Stereotyping demonstrate treating women according to restrictive generalizations instead of their individual needs abilities and circumstances denies women their human rights and fundamental freedoms Sexual Harassment and the Law Augustus B. Cochran, 2004 This is much more than a story of a single case It provides a panoramic overview of the role of work in women's lives a succinct history of employment discrimination law and a penetrating analysis of the evolution of our views of sexual harassment in the workplace Karen O Connor author of Women Politics and American Society After Vinson nothing was the same Cochran does a masterful job of setting the case in its historical context and exploring its legal impact Judith A Baer author of Our Lives before the Law Constructing a Feminist Jurisprudence Cochran is an exceptional raconteur and his book is comprehensive thorough and wonderfully forward looking Nancy Levit author of The Gender Line Men Women and the Law Employment Non-Discrimination Act United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions, 2012 **Gender and Law** Katharine T. Bartlett, Angela P. Harris, Deborah L. Couglin Jeffries and Low's Criminal Law positions the authors' authoritative grasp of the subject against a background of cultural and political debate. The text deals with profound questions integral to the study of criminal law in a changing society: current controversies in the law of rape and sexual assault; the Bernard Goetz case and the use of deadly force in self defense; defenses available to battered women; the insanity defense and capital punishment. The third edition also includes a new chapter on mens rea in federal crimes. **Employment Law Yearbook ...** ,2009 **Social Sciences Index** ,1995

Employment and Labor Relations Law for the Corporate Counsel and the General Practitioner ,2006 The Law of Employment Discrimination Joel William Friedman, George M. Strickler, Jr., George Strickler, 1991-10. Toward the end of its 1988 term the Supreme Court rendered a series of decisions that altered long standing precedent in a number of areas of employment discrimination doctrine. Those decisions, most of which are included in this supplement as principal cases and the revised note material necessitated by the changes in the law, account for the bulk of this supplement. The Court's employment discrimination decisions during the term of court that just ended are fewer in number and doctrinally less important than the previous year's cases. Those decisions are discussed in substantial detail along with significant decisions from the lower courts in the revised note material. Pref. *West's New York Digest* ,2003 **Current Developments in Employment Law** ,2005 *The Case for Gay Rights* David A. J. Richards, 2005. As Americans wrestle with debates over traditional values, defense of marriage and gay rights, reason often seems to take a back seat to emotion. In response, legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy, intimate life, free speech, tolerance, and conscience that underpin these often heated debates. The distillation of Richards's thirty-year advocacy for the rights of gays and lesbians, his book provides a reflective treatise on basic human rights that touch all of our lives. He places in context two key Supreme Court cases: the 1986 *Bowers v. Hardwick* decision and the 2003 *Lawrence v. Texas* decision, which overturned it. Drawing upon his own experiences as a gay man, Richards interweaves personal observations with philosophical, political, judicial, and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys. From publisher description. **Law & Inequality** ,2014 **Women and the Law** Libby S. Adler, 2008. Organized around three central topics of work, family, and body, this book reflects a multiplicity of feminist stances and critiques. Highlights include treatment of same-sex marriage, developments, sustained treatment of perspectives and problems affecting women of color, contemporary assessments of sexual harassment, law expanded treatment of women and the labor market, the economics of divorce, pornography and prostitution, federal civil rights and state tort law responses to domestic violence, and current regulation of women's reproductive decisions and critiques of reproductive technologies.
