## **Sex Life Of Plants:**

Wie die Pflanzen lieben (The sex life of plants, dt.) Das geheimnisvolle Liebesleben d. Pflanzen, e. Blick in d. Seele d. Natur Alec Bristow, 1979      Trans Materiality and Queer Politics in Troubling Times Joanna Godlewicz-Adamiec, Paweł Piszczatowski, Piotr Kociumbas, Christian Struck, Neha Khetrapal, 2023-04-17 The third issue of TRANSPOSITIONES is devoted to trans concepts of materiality and queer politics emerging from the view of the world entangled in the hybrid relationships of matter gender human and nonhuman technology and epistemology derived from Barad's agential realist interpretation of quantum physics The central texts in this issue are the German translations of Karen Barad's article Trans Materialities Trans Matter Realities and Queer Political Imaginings and Susan Stryker's essay My Words to Victor Frankenstein Above the Village of Chamounix Performing Transgender Rage The basic intention of this issue is therefore to form a platform for critical discussion of Karen Barad's method of discursive transposition of approaches assuming a subversive coexistence of post secular conversions of the idea of genesis and physically proven sources of planetary life on Earth      **The Sex Life of Flowers** Bastiaan Meeuse, Sean Morris, 1984 Photographs and text describe the variety of methods evolved by plants to achieve pollination      **The Future of Post-Human Sexuality** Peter Baofu, 2009-12-14 What precisely resides in sexuality which warrants the popular discourse on sexuality as part of our world freedom or something as an inspiring source for our own creation of new forms of relationships or new forms of love never before possible in human history This popular treatment of sexual freedom has become so politically correct in this day and age of ours that it fast degenerates into a seductive ideology which has impoverished our understanding of sexuality by blinding us from its dark sides Contrary to this intoxicating conventional wisdom the dark sides of this seductive ideology have yet to be systematically understood and that its very creative freedom is neither possible nor desirable to the extent that its advocates would like us to believe Of course this is not to suggest that sexuality should not be about freedom nor creativity or that the literature in sexual studies and other related fields like gender studies queer studies and cultural studies for example should be ignored because of their scholarly nonsense Needless to say neither of these two extreme views is reasonable either Instead the purpose of this book is to provide an alternative better way to understand the nature of sexuality in special relation to the sexual body and spirit in conjunction with the mind while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other This seminal project if successful will fundamentally change the way that we think about the nature of sexuality from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate      **The sexual life of our time: a complete encyclopaedia of the sexual** Iwan Bloch, 1937      Reproduction and the Maternal Body in Literature and Culture Jennifer S. Henke, 2025-05-13 This book examines a selection of texts to discuss how midwifery obstetrics and women's bodies were constructed during the long eighteenth century and how these

material discursive entanglements between science medicine literature and culture have shaped society's views of pregnancy childbirth and reproduction Drawing on theories from disciplines such as feminist new materialism this book traces the history of both the reproductive body and the pluralistic medical knowledges that attended to pregnancy and childbirth during the Enlightenment and early Romanticism in Britain It identifies the significance of literary and cultural artefacts in this knowledge formation including the materiality of the female reproductive body itself and raises awareness of myths about pregnancy and childbirth that persist today This book features chapters exploring Jonathan Swift's Gulliver's Travels John Cleland's Fanny Hill Laurence Sterne's Tristram Shandy Eliza Fenwick's Secresy Or The Ruin on the Rock Mary Wollstonecraft's Maria Or The Wrongs of Woman and Mary Shelley's Frankenstein Reproduction and the Maternal Body in Literature and Culture is an innovative and interdisciplinary contribution to the medical humanities and feminist philosophy of science and will interest scholars from a range of backgrounds including literature and cultural studies midwifery medicine and history

Havelock Ellis, 1910     The Philosopher's Plant Michael Marder, 2014-11-04 Despite their conceptual allergy to vegetal life philosophers have used germination growth blossoming fruition reproduction and decay as illustrations of abstract concepts mentioned plants in passing as the natural backdrops for dialogues letters and other compositions spun elaborate allegories out of flowers trees and even grass and recommended appropriate medicinal dietary and aesthetic approaches to select species of plants In this book Michael Marder illuminates the elaborate vegetal centerpieces and hidden kernels that have powered theoretical discourse for centuries Choosing twelve botanical specimens that correspond to twelve significant philosophers he recasts the development of philosophy through the evolution of human and plant relations A philosophical

history for the postmetaphysical age The Philosopher s Plant reclaims the organic heritage of human thought With the help of  
 vegetal images examples and metaphors the book clears a path through philosophy s tangled roots and dense undergrowth
