Dangerous Fictions Lyta Gold, 2024-10-29 In a political moment when social panics over literature are at their peak

Dangerous Fictions is a mind expanding treatise on the nature of fictional stories as cultural battlegrounds for power. Fictional stories have long held an uncanny power over hearts and minds especially those of young people. In Dangerous Fictions Lyta Gold traces arguments both historical and contemporary that have labeled fiction as dark immoral frightening or poisonous. Within each she asks How dangerous is fiction really And what about it provokes waves of moral panic and even censorship. Gold argues that any panic about art is largely a disguised panic about power. There have been versions of these same fights over fiction for centuries. By exposing fiction as a social danger and a battleground of immediate public concern we can see what each side really wants the right to shape the future of a world deeply in flux and a distraction from more pressing material concerns about money access and the hard work of politics. From novels about people driven insane by reading novels to copaganda TV shows that influence how viewers regard the police Gold uses her signature wit research and fearless commentary to point readers toward a more substantial question Fiction may be dangerous to us but aren't we also dangerous to it.
