**The End of Project Overruns** Robert M. Patty, Michael A. Project examples will help teams implement the principles that shorten cycle times, eliminate error, improve quality, and reduce costs to succeed in meeting project commitments. Emerging Lean enterprise relationships between clients, EPC contractors, and their entire supply chain will advance what constitutes the new market, differentiating performance of individuals, project teams, and companies justifying high levels of trust and inter-organizational efforts to improve. Client executives will learn to recognize root causes of risk and sources of excellence to mitigate them. EPC executives will better engage creative voices from their best resources and stakeholders to resolve all concerns and define a unified vision for how to deliver on clients' expectations without overruns during capital project delivery. Lean methods will effectively assure that vision, principles, and best expectations are understood and implemented at the workplace. Department discipline and stakeholder leaders will align and no longer frustrate each other and their clients. They will plan and execute with increased efficiency and effectiveness.
