Policy Tools for Improving Education Robert E. Floden,2003-03-15 This volume of Review of Research in Education is devoted to research on policy tools that could be used to promote improvements in education The volume comprises chapters on standards and assessments tools that have formed the core of a standards based approach to education policy that has been central in discussions of education policy in the past two decades Chapters also address two areas professional development and educational technology that have been featured in policy discussions but do not neatly fit the notion of tools Policymakers have invested heavily in both these areas presumably with the thought that additional resources would be used to produce improved

outcomes In comparison with standards and assessments however these two tools are more oriented toward increasing the capacity of the system than toward pushing the system in a particular direction Leading Change and Managing Transformation in Higher Education ,2001 *Current Index to Journals in Education* ,2002 *Planning Education Reforms in Developing Countries* Dennis A. Rondinelli,John Middleton,Adriaan Verspoor,1990 Focusing on education improvement programs in developing countries this book offers a set of guidelines for applying contingency theory in planning such projects and for selecting appropriate management strategies to implement them The success of people centered development programs depends on planners ability to tailor services to different groups particular needs and changing people s behavior so that they may more effectively help themselves The first chapter reviews experience with education improvement plans funded by international assistance organizations such as the World Bank identifies education innovation characteristics and traces their implications for selecting project management strategies Chapter 2 reviews contingency theory and chapter 3 describes an operational framework for using it to analyze the management requirements of a project and the management capacity of implementing agencies The next four chapters thoroughly discuss the main elements of contingency analysis including the environment task innovation cultural values management structures and organizational structures The final chapter shows how planners can use the results of these analyses to develop management capacity in organizations that will carry out educational reforms and to modify project and program designs to increase the chances for success 134 references MLH **Pathway to Inclusion** Anne Mungai,Esther Kogan,2005-05-05 This edited volume candidly uncovers the inside experiences of different educational inclusion programs for special needs students Uniquely it focuses on the perspectives of students teachers parents university faculty and administrators These voices absent from most accounts of special education literature are often silenced by professional discourses concerned with identification assessment placement or practice Pathway to Inclusion is intended for practicing teachers prospective teachers administrators related professionals and family members of children with special needs It is intended not as a methods text but rather a comprehensive text Strategies for Change in Medical Schools and Teaching Hospitals ,1993 **Preparing for the Twenty-first Century Through Education, Training and Work** South Africa.
