**Dying and Death** Judy Oaks,Gene Ezell,1993 *Beyond the Threshold* Christopher M. Moreman,2017-09-13 Beyond the Threshold introduces readers to afterlife beliefs and experiences in world religions The second edition has been revised and updated throughout including a new chapter on afterlife beliefs and practices in selected African traditions new research on the afterlife and near death experiences the addition of key words and definitions to each chapter and more Christopher M Moreman offers an introduction to afterlife beliefs in ancient cultures which are essential to understanding the roots of many modern ideas about death He examines the folklore and doctrines of major world religions including Judaism Christianity Islam Hinduism Buddhism Chinese religions and several African traditions He also discusses psychic phenomena across traditions such as mediums near death and out of body experiences and past life memories While ultimately the afterlife remains unknowable the second edition of this unique in depth exploration of both beliefs and experiences can help readers reach their own understanding of the afterlife and how to live

Global Health, Humanity and the COVID-19 Pandemic Francis

Egbokhare,Adeshina Afolayan,2023-02-24 This volume interrogates global health and especially the scourge of the COVID 19 pandemic and the role that science has played in mitigating the human experiences of pandemics and health over the centuries Science and the scientific method has always been at the forefront of the human attempt at undermining the virulent consequences of sicknesses and diseases However the scientific image of humans in the world is founded on the presumption of possessing the complete understanding about humans and their physiological and psychological frameworks This volume challenges this scientific assumption Global health denotes the complex and cumulative health profile of humanity that involves not only the framework of scientific researches and practices that investigates and seeks to improve the health of all people on the globe but also the range of humanistic issues economic cultural social ideological that constitute the sources of inequities and threat to the achievement of a positive global health profile This volume balances the argument that diseases and pandemics are human problems that demand both scientific and humanistic interventions
