The Safe Standing Movement in Football Mark Turner, 2023-09-08 This book tells the important story of the 30 year social movement against all seated stadia in football in England and Wales that developed in the wake of the Hillsborough stadium disaster and the wider European and international significance of that movement Examining the fan networks relations tactics and interactions which built the Safe Standing movement this book reveals an untold social history of football supporter activism and represents an important contribution to our understanding of football supporter based social movements the sociology of football and social movement studies more broadly This book argues that Safe Standing is sociologically highly significant because the restriction and partial exclusion of football fans as a social group in the timescape of English football after Hillsborough marked a moment of profound social change in the UK Applying relational sociology and drawing on original research and insider access this book considers how events and ruptures such as Hillsborough shape the dynamics of a social movement In this case supporters who have been deeply affected by the all seating legislation are now in a position to affect the future consumption of football This book shows how this was achieved and how a small core network of approximately 30 supporters networked with supporter groups across Europe now stand to impact and shape the consumption habits of a key leisure practice all over the world This is fascinating reading for any student researcher or policy maker with an interest in football sociology political science public policy or cultural and social history

Last Shop Standing: Whatever Happened To Record Shops? Graham Jones, 2010-07-23 Last Shop Standing Whatever Happened To Record Shops documents the sad disappearance of a cultural icon from our high streets Once a thriving industry the UK has gone from having over 2000 independent record shops in the 1980s to just 269 in 2009 Written by Graham Jones who has worked in the distribution industry for over 25 years as a record company salesman this book presents a snapshot of a business that is under threat of going the same way as the stamp shop the coin shop and the candlestick maker Jones speaks to 50 record shop owners to see why they have survived while nearly two thousand others have closed These interviews form the basis of the book which celebrates the rich social history in which the record shop is steeped In 2012 Last Shop Standing was made into an award winning 50 minute film featuring interviews with Johnny Marr Norman Cook Richard Hawley Paul Weller and Billy Bragg alongside many of the record shop owners featured in the book Given a new tagline the rise fall and rebirth of the independent record shop the film

has been screened around the globe and was an official selection at the Chicago International Movies Music Festival in 2013

Official Report of the Standing Committees Great Britain. Parliament. House of Commons, 1988 **College Football** John Sayle Watterson, 2020-10-13 The rules of the game have changed in the past hundred years but human nature has not In March 1892 Stanford and California had played the first college football game on the Pacific Coast in San Francisco The pregame activities included a noisy parade down streets bedecked with school colors Tickets sold so fast that the Stanford student manager future president Herbert Hoover and his California counterpart could not keep count of the gold and silver coins When they finally totaled up the proceeds they found that the revenues amounted to 30 000 a fair haul for a game that had to be temporarily postponed because no one had thought to bring a ball from College Football History Spectacle Controversy Chapter Three In this comprehensive history of America's popular pastime John Sayle Watterson shows how college football in more than one hundred years has evolved from a simple game played by college students into a lucrative semiprofessional enterprise With a historian's grasp of the context and a novelist's eye for the telling detail Watterson presents a compelling portrait rich in anecdotes colorful personalities and troubling patterns He tells how the infamous Yale Princeton fiasco of 1881 in which Yale forced a 0-0 tie in a championship game by retaining possession of the ball for the entire game eventually led to the first down rule that would begin to transform Americanized rugby into American football He describes the kicks and punches gouged eyes broken collarbones and flagrant rule violations that nearly led to the sport's demise including such excesses as a Yale player who wore a uniform soaked in blood from a slaughterhouse And he explains the reforms of 1910 which gave official approval to a radical new tactic traditionalists were sure would doom the game as they knew it the forward pass As college football grew in the booming economy of the 1920s Watterson explains the flow of cash added fuel to an already explosive mix Coaches like Knute Rockne became celebrities in their own right with highly paid speaking engagements and product endorsements At the same time the emergence of the first professional teams led to inevitable scandals involving recruitment and subsidies for student athletes Revelations of illicit aid to athletes in the 1930s led to failed attempts at reform by the fledgling NCAA in the postwar Sanity Code intended to control abuses by permitting limited subsidies to college players but which actually paved the way for the free ride many players receive today Watterson also explains how the growth of TV revenue led to college football programs unprecedented prosperity just as the rise of professional football seemed to relegate college teams to minor league status He explores issues of gender and race from the shocked reactions of spectators to the first female cheerleaders in the 1930s to their successful exploitation by Roone Arledge three decades later He describes the role of African American players from the days when Southern schools demanded all white teams and Northern schools meekly complied through the black armbands and protests of the 60s to one of the game's few successful if limited reforms as black athletes dominate the playing field while often being shortchanged in the classroom Today Watterson observes colleges' insatiable hunger for revenues has led to an abuse-filled game nearly

indistinguishable from the professional model of the NFL After examining the standard solutions for reform he offers proposals of his own including greater involvement by faculty trustees and college presidents Ultimately however Watterson concludes that the history of college football is one in which the rules of the game have changed but those of human nature have not

The Danihers Terry Daniher,2014-05-14 A revealing account of how four unassuming blokes from the bush endeared themselves to Australian Rules fans and became part of football folklore On 1 September 1990 four brothers made Australian Rules history by playing together for the one team the Essendon Football Club something that is unlikely to ever happen again Terry Neale Anthony and Chris Daniher grew up in a tiny Riverina town where they played footy on Saturdays and Rugby League after mass on Sundays They reached the elite level in an era when tobacco sponsorship and a few beers with the opposition after a game were the norm It was a time when Jim Daniher could throw a teenage son into a trade deal and Kevin Sheedy and Edna Daniher could conspire to make a dream come true But it wasn't all plain sailing injuries cut short a promising career trading between clubs was largely unregulated the Swans were shunted off to Sydney and coaching changed dramatically This is an action packed story of the period when the national Aussie Rules competition emerged and football became big business and an unassuming bunch of blokes from the bush endeared themselves to footy fans and became part of football folklore
