College School is one of the oldest continually functioning schools in the United Kingdom and indeed the world. It was founded in 1379 by William of Wykeham Bishop of Winchester to provide choristers for the chapel of New College Oxford. Since then the School has had a peripatetic existence occupying prime locations in the centre of a beautiful university city. Its pupils have witnessed centuries of dramatic history including being inspected by Tudor monarchs during the Reformation and being forced out of their schoolroom during the English Civil War. The School has also grown over the centuries to include many more boys than those of the original choral foundation educating and preparing them all for distinguished careers and fulfilled lives.

While it may seem easy to paint a three dimensional miniature figure to do it properly requires a practiced hand and some artistic techniques. Because the figure is so small the shadings and highlights must be emphasized to make the figure seem realistic. Mike Davidson has years of experience painting miniature military figures and in teaching the art to others. Using a combination of hobby paints and oils he is able to create a visual effect that brings life to the cast or sculpted figures. In this book Mike takes a commercially produced casting and takes the reader through the process of assembly painting and mounting ending with a figure that would be a proud addition to any collection. Each step is clearly photographed and captioned so that the reader may follow them. While applied to a particular figure the lessons learned from this book will enhance any painting the reader may choose to do.
