## Sea As Mirror:

**The Sea As Mirror** Wu Yi, 2021-05-30 The Sea as Mirror traces the pressing and repressed material and symbolic presence of the Mediterranean Sea and the Atlantic Ocean from Plato to Heidegger To do so Wu Yi employs the maritime as a lens to understand the drive of philosophy as both a response to and moment within the impetus of Western colonization Yi examines how philosophy has again and again constructed itself as a genre in opposition to the movement of deterritorialization and fluidity of mimesis She does so via the method meta after hodos way journey of a series of essayings in the original sense of trial measure attempt across a geopolitical topography of discourses These include philosophical texts drawn from a constellation of historical topoi at the critical moments of their encounter with the maritime Plato and Euripedes s work from fifth century Athens Augustus and Plautus s writings from republican and early imperial Rome Shakespeare s creations from Elizabethan England Kant and Rousseau s texts from enlightenment continental Europe and the thinking of Husserl and Heidegger from interwar Germany of the twentieth century For each historical topoi Yi juxtaposes different representations of and responses to the maritime through the reading of a philosophical text vis vis the reading of a literary text In so doing she lays bare the deep political and moral ambiguity attributed to the ocean in Western philosophical and literary imaginaries

**Sea as Mirror** Tess Williams, 2001 In the not too distant future and in a specially constructed marina off the US coast Elizabeth works to communicate with a killer whale an orca Tachotic Because of the nature of the project it is very political and she treads a fine line between people thinking she is mad closing down the project and doing the work necessary to prove it is possible Elizabeth feels she is getting very close to success but she is getting frustrated with being so close and unable to find the key to understanding what Tachotic is trying to tell her Tachotic himself is unsure why he has sought humans how he can possibly convey the life of the pods And Elizabeth s time and energy is sometimes fragmented by her on off relationship with Joe her inability to put him in one compartment and her work in another As her work takes over more and more Joe is impatient to move on As the human world falls victim to terrorist nuclear attacks and everything that was familiar comes under threat ancient kinships between the land the sea re emerge to show a different future a future full of hope

The Sea and the Mirror W. H. Auden, 2005-10-02 Written in the midst of World War II after its author emigrated to America The Sea and the Mirror is not merely a great poem but ranks as one of the most profound interpretations of Shakespeare s final play in the twentieth century As W H Auden told friends it is really about the Christian conception of art and it is my Ars Poetica in the same way I believe The Tempest to be Shakespeare s This is the first critical edition Arthur Kirsch s introduction and notes make the poem newly accessible to readers of Auden readers of Shakespeare and all those interested in the relation of life and literature those two classic themes alluded to in its title The poem begins in a theater after a performance of The Tempest has ended It includes a moving speech in verse by Prospero bidding farewell to Ariel a section in which the supporting characters speak in a dazzling variety of verse forms

about their experiences on the island and an extravagantly inventive section in prose that sees the uncivilized Caliban address the audience on art an unalloyed example of what Auden's friend Oliver Sachs has called his wild extraordinary and demonic imagination Besides annotating Auden's allusions and sources in notes after the text Kirsch provides extensive quotations from his manuscript drafts permitting the reader to follow the poem's genesis in Auden's imagination This book which incorporates for the first time previously ignored corrections that Auden made on the galleys of the first edition also provides an unusual opportunity to see the effect of one literary genius upon another Empty And The Full, The: Li Ye And The Way Of Mathematics - Geometrical Procedures By Section Of Areas Charlotte-v Pollet,2020-03-20 During Song 960 to 1279 and Yuan 1279 to 1368 dynasties China experienced a peak in high level algebraic investigation through the works of famous mathematicians such as Qin Jiushao Zhu Shijie Yang Hui and Li Ye Among these is Li Ye's short treatise on a curious ancient geometrical procedure The Development of Pieces of Areas According to the Collection Augmenting the Ancient Knowledge Yigu yanduan The aim of this monography is to contradict traditional scholarship which has long discredited the importance of Li Ye's treatise considering it a mere popular handbook The author aims to show that Li Ye's work actually epitomizes a completely new aspect of ancient Chinese mathematics a crossroad between algebra geometry and combinatorics containing elements reminiscent of the Book of Changes Yi Jing As well as Li Ye used field measurement as pretext for investigations on quadratic equations and Changes the present study uses Li Ye's small treatise as pretext for philosophical investigations on link between mathematics and their history The real topic of the study is the exploration of another expression of proof and generality in Chinese mathematics This book not only completes the edition of Li Ye's works and presents new features of Chinese mathematics but also fills a gap in the translation of Chinese mathematics treatises It is the first book entirely dedicated to the diagrammatic practice of algebra in the history of Chinese mathematics This practice is more important than expected While being a monograph the book is short and detailed enough to be used by students in class It can also be used as an entry door to the research field of history of Chinese mathematics The Eclectic Magazine of Foreign Literature, Science, and Art ,1877 Imagined Civilizations Roger Preston Hart,2013-08-15 While the Jesuits claimed Xu as a convert he presented the Jesuits as men from afar who had traveled from the West to China to serve the emperor **Unsettled** Patricia Fumerton,2006-05 Migrants made up a growing class of workers in late sixteenth and seventeenth century England In fact by 1650 half of England's rural population consisted of homeless and itinerant laborers Unsettled is an ambitious attempt to reconstruct the everyday lives of these dispossessed people Patricia Fumerton offers an expansive portrait of unsettledness in early modern England that includes the homeless and housed alike Fumerton begins by building on recent studies of vagrancy poverty and servants placing all in the light of a new domestic economy of mobility She then looks at representations of the vagrant in a variety of pamphlets and literature of the period Since seamen were a particularly large and prominent class of mobile wage laborers in the seventeenth century Fumerton turns to seamen
