Seal Wars:

The Seven Seals Revealed J. Yescas, 2025-10-13 If you have been stumped by the book of Revelation like I have been then this book is for you The book of Revelation is aptly named because it is a revealing book and the time has come for the unsealing of its meaning After reading this fast paced book you ll be able to identify and understand what the seven seals are and what they represent Subsequently this understanding will unravel the mystery of the entire book of Revelation and it will become much less mysterious and frightening and completely understandable And so will many of the end time prophecies in the book of Daniel with which it is inextricably linked Enjoy the ride Greenpeace Frank Zelko, 2014-02-19 Die

John James C. Taylor, 2015-04-19 This is a verse by verse commentary on the Book of Revelation presented from a Post tribulation Rapture point of view It includes discussion of who John was that received the Revelation the probable time in which it was received and written a look at possible interpretations of the meaning and purpose of the Revelation and other issues related to this magnificent symbolic work In this presentation the main body of the Revelation is shown as a series of Seven Visions each with its own story to tell and each ending with the Return of the Lord or an event heralding that Return Seven Visions all rolled into one great glorious truth given on the Isle of Patmos to John by Jesus Christ **New Social**

Movements, Class, and the Environment John-Henry Harter, 2011-05-25 New Social Movements Class and the Environment explores the history of Greenpeace Canada from 1971 to 2010 and its relationship to the working class In order to understand the ideology behind Greenpeace the author investigates its structure personnel and actions The case study illustrates important contradictions between new social movement theory and practice and how those contradictions affect the working class In particular Greenpeace s actions against the seal hunt against forestry in British Columbia and against its own workers in Toronto demonstrate some of the historic obstacles to working out a common labour and environmental agenda The 1970s saw an explosion of new social movement activism From the break up of the New Left into single issue

groups at the end of the 1960s came a multitude of groups representing the peace movement environmental movement student movement women s movement and gay liberation movement This explosion of new social movement activism has been heralded as the age of new radical politics Many theorists and activists saw and still see new social movements and the issues or identities they represent as replacing the working class as an agent for progressive social change This paper examines these claims through a case study of the quintessential new social movement Greenpeace

Make It a Green Peace! Frank Zelko, 2013-05-30 The emergence of Greenpeace in the late 1960s from a loose knit group of anti nuclear and anti whaling activists fundamentally changed the nature of environmentalism its purpose philosophy and tactics around the world And yet there has been no comprehensive objective history of Greenpeace s origins until now *Make It a Green Peace* draws upon meeting minutes internal correspondence manifestos philosophical writings and interviews with former members to offer the first full account of the origins of what has become the most recognizable environmental non governmental organization in the world Situating Greenpeace within the peace movement and counterculture of the 1960s Frank Zelko provides a much deeper treatment of the group s groundbreaking brand of radical media savvy direct action environmentalism than has been previously attempted Zelko traces the complex intellectual and cultural roots of Greenpeace to the various protest movements of the 1950s and 1960s highlighting the influence of Quakerism with its practice of bearing witness Native American spirituality and the non violent resistance of Gandhi Unlike the more strait laced less confrontational Sierra Club and Audubon Society early Greenpeaceers smoked dope dropped acid wore their hair long and put their bodies on the line interposing themselves between the harpoons of whalers and the clubs of seal hunters to save the animals and achieve what they hoped would be a lasting transformation in the way humans regarded the natural world And while it may not have achieved its most revolutionary goals Greenpeace inarguably created a heightened awareness of environmental issues that endures to this day Narrating the key campaigns and arguments among the group s early members *Make It a Green Peace* vividly captures all the drama pathos and occasional moments of absurd comic relief of Greenpeace s tumultuous first decade
