Demography State and Society is the first comprehensive analysis of the twentieth century Irish exodus to Britain. Meticulously researched using an exhaustive range of previously unused source materials, this book provides a detailed examination of the many ways in which migration shaped twentieth century Irish society. The book focuses on a number of vital themes, many of them rarely mentioned by previous studies: state policy in Ireland, official responses in Britain, gender dimensions, individual migrant experience, patterns of settlement in Britain, and the crucial phenomenon of return migration. A major study of Irish migration, this book also offers much that will be of interest to scholars, students, and general readers in the wider fields of modern British and Irish history.

Preventing the Future Tom Garvin, 2004-08-24. Between the years of the mid thirties through to 1960, independent Ireland suffered from economic stagnation and also went through a period of intense cultural and psychological repression. While external circumstances account for much of the stagnation, especially the depression of the thirties and the Second World War, *Preventing the Future* argues that the situation was aggravated by internal circumstances. The key domestic factor was the failure to extend higher and technical education and training to larger sections of the population. This derived from political stalemates in a small country, which derived in turn from the power of the Catholic Church, the strength of the small farm community, the ideological wish to preserve an older society, and later gerontocratic tendencies in the political elites and in society as a whole. While economic growth did accelerate after 1960, the political stand off over mass education resulted in large numbers of young people being denied preparation for life in the modern world, and arguably denied Ireland a sufficient supply of trained labour and educated citizens. Ireland's Celtic Tiger of the nineties was in great part driven by a new and highly educated and technically trained workforce. The political stalemates of the forties and fifties delayed the initial incomplete take off until the sixties, and resulted in the Tiger arriving nearly a generation later than it might have.

Sean Lemass: The Enigmatic Patriot John Horgan, 1997-10-01. The definitive biography of Seán Lemass, the finest Taoiseach in the history of the Irish State. There are few facets of Irish life which do not owe something to the genius, effectiveness, or determination of Lemass. Horgan's biography explores that contribution quite brilliantly. Bertie Ahern, *The Irish Times*. As a boy, Seán Lemass fought in the 1916 rising. He was a member of de Valera's first cabinet, Minister for Industry and Commerce in every Fianna Fáil government between 1932 and 1959, and as Taoiseach from 1959 to 1966, was the pivotal figure in the modernisation of Ireland. The Lemass that emerges from this fine book is an enigma and a passionate patriot, a protectionist who later became an apostle of free trade, a moderniser in what was often a party of traditionalists. John Horgan's excellent biography is the work of a critical admirer who sees his subject as one of the most outstanding Irish political figures of the century. The only biographer to have had complete access to all the government papers for the full period of Lemass's political career, Horgan provides us with a rounded, sympathetic, yet critical examination of the life of one of twentieth century Ireland's most distinguished figures, a comprehensive and thoughtful work worthy of the subject. It lives up to its billing as a major biography of the Fianna Fáil leader. Stephen Collins.

The Sunday Tribune Sean Lemass was not only one of the most formidable but for all his apparently bluff straightforwardness one of the most elusive personalities in the history of twentieth century Ireland John Horgan's study skilfully crafted and elegantly expressed is a major biography of a major figure greatly enhancing our understanding of the making of modern Ireland J J Lee author of *The Modernisation of Irish Society 1848-19* **Seán MacEntee** Tom Feeney, 2009 This is the first biographical work of one of the chief policymakers to have served the independent Irish state It is the only scholarly biography apart from Sean Lemass of a senior Fianna Fail minister prominent in every de Valera administration Sean MacEntee was in many ways a unique political personality He was the most senior politician in the independent Irish state to have been born in what became Northern Ireland Moreover he was a fiercely independent thinker whose written contribution to the public life of the state was considerable reflecting his insatiable interest in all aspects of government policy not merely those for which he bore ultimate responsibility An assessment of MacEntee's life offers a unique opportunity to convey the full force of ministerial thought over a period of four decades in government and provides a comprehensive record of the main aspects of public policymaking since the foundation of the state Book Jacket *The Legacy of History* Martin Mansergh, 2003 A collection of thought provoking historical pieces by a leading player in North South relations And The peace process **Redefining Christian Britain** Jane Garnett, 2007 Addresses the state of religion in the UK from post WWII to the new millennium with a selection of case studies from experts in the fields of history sociology and religious studies This book is organised around the themes of authenticity generation and virtue It looks at the impact of Christianity over a range of areas of national life *Irish Economic and Social History*, 2004 *Days of Blue Loyalty* Michael Gallagher, Michael Marsh, 2002 *Judging Dev* Diarmaid Ferriter, 2007 Eamon de Valera has often been characterised as a stern unbending devious and divisive Irish politician Diarmaid Ferriter challenges this caricature using letters documents and photographs This book chronicles the extraordinary career of the most significant politician of modern Irish history

The Irish Labour Party, 1922-73 Niamh Puirseil, 2007 The first fifty years of the state saw Ireland change dramatically and the Irish Labour Party changed with it Using a wealth of new material Niamh Puirseil traces the party's fortunes through its first fifty years in the Dail from its perceived role as the political wing of the St Vincent de Paul to its promise that the 1970s would be socialist As well as examining the competing currents in the party itself she also looks at Labour's relationship with different organisations and movements including trade unions republicans the far left the Catholic Church Fianna Fail and Fine Gael as well as with other Social Democratic parties in Britain and Northern Ireland *The Irish Labour Party 1922-1973* is an outstanding contribution to the political history of twentieth century Ireland Over the course of the book Niamh Puirseil charts the ever depressing fortunes of the Labour party Her exhaustive research provides a penetrating analysis of the myriad personalities and structures of the Labour Party and shows a new picture of a party that seemed throughout the period to be hell bent on pressing the self destruct button This book offers a fresh and insightful look at a

party riven by factions throughout its existence and one that never reached its potential for a variety of reasons all outlined here This book marks a major contribution to our understanding not simply of the Labour Party but of twentieth century Ireland itself *Fortnight*, 1998 **Northern Ireland Since 1945** Sabine Wichert, 1999 FRONT OF COVER Final 5 11 98 NORTHERN IRELAND SINCE 1945 Second Edition SABINE WICHERT Postwar World logo SPINE Postwar World logo NORTHERN IRELAND SINCE 1945 Second Edition WICHERT colophon OUTSIDE TRIM Probable price Probable publication BACK OF COVER A To those who understand no explanation is necessary To those who will not understand no explanation is possible A The different attitudes that can be read into this celebrated graffito from the Falls Road in 1980s Belfast arrogance belligerence alienation intransigence and despair amongst them have all contributed to the isolation of Northern Ireland in the modern world Explanation and understanding however are the stock in trade of the historian and it was to provide the first and assist the second that Sabine Wichert published this well known study in 1991 It rapidly established itself as Terence Ranger predicted at the time in *Irish Studies Review* as Aa standard text in contemporary history and politics courses A For other reviews of the First Edition see inside the front cover There are many reasons for its success it is a work of great authority formidably well grounded in the scholarship rather than the prejudices of the subject Sabine Wichert As approach is distinctively that of a historian rather than a political scientist or a journalist she has a special understanding of the economic factors underlying the troubled province As recent history and particularly she herself a German academic who has lived and worked in Northern Ireland for almost 30 years now is uniquely well placed as both outsider and insider to write with impartiality insight and compassion about her adopted home Much has happened to Northern Ireland since the book was published and this Second Edition will be widely welcomed The existing text has been reconsidered in the light of fresh perspectives and many new economic and social tables have been included along with a thoroughgoing overhaul of the extensive bibliography Above all the coverage has been fully updated to incorporate the major events of recent years particularly the developments from the Anglo Irish Agreement through the evolving Peace Process to the elections to Northern Ireland As new Assembly For this is a critical phase in the province for the first time in its recent history a real possibility of stabilisation and more peaceful and democratic forms of government can be detected and Sabine Wichert examines the contribution of all sides including the Irish British and US governments to this changing climate Yet tensions remain and readers of this important Second Edition will await with mingled hope and apprehension the arrival of its eventual successor to clarify whether these apparently brightening horizons do indeed mark a turning point or were only another false dawn SABINE WICHERT is Senior Lecturer at the Queen As University of Belfast where she has taught since 1971 *Administration*, 1999 **Ireland Develops** Bryan Fanning, Tony McNamara, 2003
