Seattle 1900-1920 From Boomtown Urban Turbulence To Restoration:

Seattle 1900-1920 Richard C. Berner, 1991 **Radical Seattle** Cal Winslow, 2020-02-25 On a grey winter morning in Seattle in February 1919 110 local unions shut down the entire city Shut it down and took it over rendering the authorities helpless For five days workers from all trades and sectors streetcar drivers telephone operators musicians miners loggers shipyard workers fed the people ensured that babies had milk that the sick were cared for They did this with without police and they kept the peace themselves This had never happened before in the United States and has not happened since Those five days became known as the General Strike of Seattle Chances are you've never heard of it In *Radical Seattle* Cal Winslow explains why Winslow describes how Seattle's General Strike was actually the high point in a long process of early twentieth century socialist and working class organization when everyday people built a viable political infrastructure that seemed to governments and corporate bosses radical even Bolshevik Drawing from original research Winslow depicts a process that in struggle fused the celebrated itinerants of the West with the workers of a modern industrial city But this book is not only an account of the heady days of February 1919 it is also about the making of a class capable of launching one of America's most gripping strikes what E P Thompson once referred to as the long tenacious revolutionary tradition of the common people Reading this book might increase the chance that something like this could happen again possibly in the place where you live

Wherever I Go, I Will Always Be a Loyal American Yoon Pak, 2001-12-14 *Wherever I Go I'll Always Be a Loyal American* is the story of how the Seattle public schools responded to the news of its Japanese American Nisei students internment upon the signing of Executive Order 9066 by President Franklin D Roosevelt on February 14 1942 Drawing upon previously untapped letters and compositions written by the students t *The Forging of a Black Community* Quintard

Taylor, 2011-07-01 Through much of the twentieth century black Seattle was synonymous with the Central District a four square mile section near the geographic center of the city Quintard Taylor explores the evolution of this community from its first few residents in the 1870s to a population of nearly forty thousand in 1970 With events such as the massive influx of rural African Americans beginning with World War II and the transformation of African American community leadership in the 1960s from an integrationist to a black power stance Seattle both anticipates and mirrors national trends Thus the book addresses not only a particular city in the Pacific Northwest but also the process of political change in black America

Empowering the West Jay L. Brigham, 1998 Westerners were at the forefront of the debate over electric power development even before the construction of large federally owned dams in the 1930s At the heart of this debate was a conflict between public power advocates and the private utility industry over control of the environment a struggle that was played out in the political arena In this book Jay Brigham describes that rivalry in the West in the years before the New Deal Focusing on the conservative city of Los Angeles and its liberal counterpart Seattle as well as on several small towns in the Midwest Brigham shows how fierce battles broke out as private and public systems competed for customers and how despite

the differences between these two cities public power ultimately triumphed in each **Bunion Derby** Charles B. Kastner, 2007-10-15 The story of Charley Pyle's 3 400 mile cross country race and extravaganza and the men who endured 84 days of mountains deserts mud and sandstorms to compete for a 25 000 grand prize **Nature's Northwest** William G. Robbins, Katrine Barber, 2011-04-15 At the beginning of the twentieth century the greater Northwest was ablaze with change and seemingly obsessed with progress The promotional literature of the time praising railroads population increases and the growing sophistication of urban living however ignored the reality of poverty and ethnic and gender discrimination During the course of the next century even with dramatic changes in the region one constant remained inequality With an emphasis on the region's political economy its environmental history and its cultural and social heritage this lively and colorful history of the Pacific Northwest defined here as Oregon Washington Idaho Montana and southern British Columbia places the narrative of this dynamic region within a national and international context Embracing both Canadian and American stories in looking at the larger region renowned historian William Robbins and Katrine Barber offer us a fascinating regional history through the lens of both the environment and society Understanding the physical landscape of the greater Pacific Northwest and the watersheds of the Columbia Fraser Snake and Klamath rivers sets the stage for understanding the development of the area Examining how this landscape spawned sawmills fish canneries railroads logging camps agriculture and shared immigrant and ethnic traditions reveals an intricate portrait of the twentieth century Northwest Impressive in its synthesis of myriad historical facts this first rate regional history will be of interest to historians studying the region from a variety of perspectives and an informative read for anyone fascinated by the story of a landscape rich in diversity natural resources and Native culture *Seattle in the 20th Century: Seattle, 1921-1940 : from boom to bust* Richard C. Berner, 1991 **Seattle in the 20th Century: Seattle transformed, World War II to Cold War** Richard C. Berner, 1999 **Shaper of Seattle** William Henry Wilson, 2009 During his tenure city engineer Reginald Heber Thomson delivered a clean reliable water supply a workable sewage system regraded streets and more Shaper of Seattle recounts the life and work of this extraordinary man and his devotion to the Emerald City **Pacific Northwest Quarterly**, 1999 **The Seattle Bungalow** Janet Ore, 2007 In the early twentieth century the appearance of new houses across the United States shifted dramatically Rejecting the elaborate decoration and complexity of Victorian homes these new houses featured open parlorless interiors and a minimalist aesthetic radiating an aura of warmth coziness and naturalness Nowhere were such residences more evident than in West Coast cities especially Seattle where explosive growth generated entire neighborhoods of this new house type the bungalow It was the nation's first modern home and it established the essential characteristics of popular housing for the rest of the twentieth century In *The Seattle Bungalow* Janet Ore modifies the common notion that architectural change flows only from the design elite the architects domestic reformers and planners who advocate for changes in domestic architecture and argues that ordinary people played a crucial role in creating the bungalow Through their growing power as consumers

modest income families influenced the physical form of early twentieth century houses and suburban landscapes Still operating within a nineteenth century labor and contracting system small home builders responded to rising consumer demand for new conveniences such as electricity and central heating by simplifying their structures Ambitious salespeople real estate agents plan book purveyors and builders created a new market for affordable small houses through astute advertising and financing And once families acquired their homes they used them flexibly adapting their lives to their domestic spaces and refashioning their homes when necessary From such efforts sprang the Seattle bungalow an artifact of ordinary people s part in creating modern culture Janet Oreis assistant professor of history at Colorado State University and has been a contributing writer to Pacific Northwest Quarterly and Perspectives in Vernacular Architecture Janet Ore s subject the origins marketing development and legacy of working class housing in Seattle offers an opportunity not only to explore architectural history but to characterize the economic aesthetic moral and social dimensions of such housing Dennis Andersen co author of Distant Corner Seattle Architects and the Legacy of H H Richardson A valuable record of the housing boom that transformed the American suburban landscape in the first decades of the twentieth century Kingston Heath Director Graduate Program in Historic Preservation University of Oregon **Seattle's International District** Doug Chin, 2001 Contagion and Confinement Barron H. Lerner, 1998 In Contagion and Confinement Barron H Lerner offers the first in depth look at the history of tuberculosis control in the antibiotic era providing a vital account of this neglected chapter in the history of the disease He argues that the new antibiotic drugs rather than being a simple panacea actually highlighted the complex social problems that continued to predispose people to tuberculosis and interfere with its treatment

More Voices, New Stories Mary Candice Wright, 2002 Twelve essays explore the history of Seattle and King County Washington with a special focus on social cultural and ethnic history Meet King County s earliest vaudevillians welfare mothers restaurateurs African American coal miners Scandinavian immigrants shapers of Young Men s Buddhist Association and Jewish women founders of Settlement House Here are also the modern Mexican American voters and recent Vietnamese immigrants reflecting in interviews on the forces that impact their Seattle experiences Back cover *The Emergence of a New West* John C. Putman, 2000 *Social Education in the Twentieth Century* Christine A. Woyshner, Joseph Watras, Margaret Crocco, 2004 Since the birth of the republic the aim of social education has been to prepare citizens for participation in democracy In the twentieth century theories about what constitutes good citizenship and who gets full citizenship in the civic polity changed dramatically In this book contributors with backgrounds in history of education educational foundations educational leadership and social studies education consider how social education inside and outside school has responded to the needs of a society in which the nature and prerogatives of citizenship continue to be contentious issues The Western Historical Quarterly , 1998 **Encyclopedia of the American West** , 1996 *An Inventory of Promises* Jeffrey S. Gurock, Marc Lee Raphael, 1995
