Scythian Treasures in Oxford Ashmolean Museum, Michael J. Vickers, 1979 Heather Wilson , 1999 The Maikop Treasure Aleksandr Mikhaïlovich Leskov, 2008-08-27 Catalogue University of Pennsylvania Museum of Archaeology and Anthropology Philadelphia Antikenabteilung Staatliche Museen Berlin Museum für Vor- und Frühgeschichte Berlin Metropolitan Museum of Art New York The Maikop collection a historical overview **The Cambridge Ancient History** John Boardman, I. E. S. Edwards, E. Sollberger, N. G. L. Hammond, 1992-01-16 Volume III Part II carries on the history of the Near East from the close of Volume III Part I and covers roughly the same chronological period as Volume III Part III During this period the dominant powers in the East were Assyria and then Babylonia Each established an extensive empire which was based on Mesopotamia and each in turn fell largely through internal strife Assyrian might was reflected in the imposing palaces libraries and sculptures of the Assyrian kings Babylonian culture was outstanding in literature mathematics and astronomy and the great buildings of Nebuchadnezzar II surpassed even those of the Assyrian kings Israel and Judah suffered at the hands of both imperial powers Jerusalem being destroyed and part of the population deported to Babylon and Egypt was weakened by an Assyrian invasion The Phoenicians found a new outlet in colonising and founded Carthage A number of small vigorous kingdoms developed in Asia Minor while from the north and north east the Scythian nomadic tribes pressed down upon Turkey and the Danube valley but found their match in the Thracian tribes which held south eastern Europe and parts of western Turkey The burials of the chieftains of both peoples were remarkable for the great wealth of offerings

Cultural Interactions and Social Strategies on the Pontic Shores Jane Hjarl Petersen, 2010-07-16 In Antiquity the Black Sea region was a meeting point for several different population groups with diverse cultural backgrounds The present monograph takes its point of departure in burial data from four coastal localities in the northern region of the Black Sea The mortuary practices are decoded and interpreted within a framework mainly based on concepts of cultural interaction rather than cultural polarisation Thus the dogma of The Greeks and the Others is challenged and alternative perceptions of interactions between the people in the Black Sea region form the basis of the study The burials are primarily analysed with emphasis on social strategies and cultural diversity Furthermore the Black Sea region is set into a comparative perspective through an outlook on burial customs and mortuary practices in the colonial milieu of contemporary Southern Italy 1981 Werner Hermann, 2021-06-21 Keine ausführliche Beschreibung für 1981 verfügbar Von der Scythia zur Dobrudža Khristo Kholiolchev, 1997 **Achaemenid Impact in the Black Sea** Jens Nieling, Ellen Rehm, 2010-07-16 For 200 years from the second half of the sixth century to the decades before 330 BC the Persian dynasty of the Achaemenids ruled an enormous empire stretching from the Mediterranean Sea to Afghanistan and India The Great Kings Darius I and Xerxes I even tried to conquer Greece and the northern Black Sea territories Although they failed parts of Thrace did become part of their dominion for a short period The question always rises as to why the Great Kings were interested in the western and northern

Pontic zones In contrast to some of the other satrapies such as Egypt Phoenicia and Syria the Black Sea had no prosperous cities or provinces to offer One possible answer might be the desire to conquer every part of the known world After 479 BC it seems that the Great Kings acknowledged the fact that the coast and the Caucasus formed the natural borders of their Empire The satraps on the other hand could not avoid becoming involved in the affairs of the Black Sea region in order to safeguard the frontiers they had established They had to incorporate the Greeks as accepted inhabitants of their province into the Persian administrative system Possibly they achieved this by granting them the monopoly in sea trade and using the Anatolian Greeks as the main active bearers and transmitters of Persian customs and culture More research into this chapter of Persian history is still required

Feeding the Democracy Alfonso Moreno, 2007-10-25 The reliance of democracies on vital supplies of energy from distant and non democratic sources is probably the most pressing and dangerous problem of modern times but it is not a new phenomenon Classical Athens the birthplace of democracy and the largest and historically most important of the ancient Greek city states depended for its survival on the constant importation of grain from overseas lands as remote as Ukraine and southern Russia and this trade was ultimately controlled by powerful politicians wealthy landowners and kings Alfonso Moreno examines how this resource need determined Athenian foreign policy prompting recourse to military conquest and ruthless resettlements and how uncomfortable realities especially elite control were made acceptable to popular audiences This study of ancient trade and politics reveals a Greek world as globalized as our own and convulsed by the same problems that such interdependence and sophistication entail *The Rogozen Treasure* B.
