The Sea Battle and the Master Argument Richard Gaskin, 2011-05-02 No detailed description available for The Sea Battle and the Master Argument On the Sea Battle Tomorrow that May Not Happen Tomasz Jarmużek, 2018 The book examines the Master Argument MA of Diodorus Cronus in the context of the Sea Battle Tomorrow of Aristotle The author investigates problems of sentences about the future time and determinism He shows that certain reconstructions of the MA do not assume a linear time structure Thus the MA is not an argument in favour of determinism **The Stoics on**

Determinism and Compatibilism Ricardo Salles, 2017-03-02 The Stoics on Determinism and Compatibilism is an important book which reconstructs the arguments deployed by the Stoics in favour of the view that everything is necessary and examines the development of the different arguments given by the Stoics that this is compatible with moral responsibility and desert The book carefully distinguishes two separate theses in Stoic theory that everything that happens and is the case has a cause and that causation is necessitating The book also provides a new reconstruction of Stoic compatibilism distinguishing four different compatibilist theories Salles has written a book which is non technical in its approach and which assesses the Stoic positions on determinism compatibilism freedom and responsibility in the light of the modern debate on this issue Covering not just the ancient debates and thinkers such as Epictetus and Chrysippus but also examining the compatibilist views of the major modern theorist Harry Frankfurt finding indications of his main intuitions already present in the Stoic arguments and tackling the positions of Suzanne Bobzien **Ammonius: On Aristotle On Interpretation 9 with**

Boethius: On Aristotle On Interpretation 9 David L. Blank, Norman Kretzmann, 2014-04-10 This book is about determinism It contains the two most important commentaries on the determinists sea battle argument and on other deterministic arguments besides It includes the earliest full exposition of the Reaper argument for determinism and a discussion of whether there can be changeless knowledge of the passage of time It also contains the two fullest expositions of the idea that it is not truth but only definite truth that would imply determinism Ammonius and Boethius both wrote commentaries on Aristotle's On Interpretation and on its ninth chapter where Aristotle discusses the sea battle Their comments are crucial for Ammonius commentary influenced the Islamic the Islamic Middle Ages while that of Boethius was of equal importance to medieval Latin speaking philosophers It was once argued that Boethius was influenced by Ammonius but these translations are published together in this volume to enable the reader to see clearly that this was not the case Ammonius draws on the fourth and fifth century Neoplatonists Iamblichus Syrianus and Proclus He arranges his argument around three major deterministic arguments and is our main source for one of them the Reaper argument which has hitherto received insufficient attention Boethius on the other hand draws on controversies from 300 years earlier between Stoics and Aristotelians as recorded by Alexander of Aphrodisias and Porphyry This volume is essential reading for all those with an interest in the history of determinism Ammonius commentary on the first eight chapters of Aristotle's On Interpretation has
