**Skins, Boston Ships, and China Goods** James R. Gibson,1992-01-14 Before contact with white people the Northwest Coast natives had traded amongst themselves and with other indigenous people farther inland but by the end of the 1780s when Russian coasters had penetrated the Gulf of Alaska and British merchantmen were frequenting Nootka Sound trade had become the dominant economic activity in the area The Tlingit Haida Tsimshian Nootka Salish and Chinook Indians spent much of their time hunting fur bearing animals and trading their pelts especially the highly prized black skins of sea otters to Russian British Spanish and American traders for metals firearms textiles and foodstuffs The Northwest Coast Indians used their newly acquired goods in intertribal trade while the Euro American traders dealt their skins in China for teas silks and porcelains that they then sold in Europe and America This traffic continued for more than half a century until in the early 1840s the Northwest trade declined significantly because of depletion of the fur bearing animals due to over hunting depopulation of the Indians by disease and warfare and depression of the market for furs While previous studies have concentrated on the boom years of the fur trade before the War of 1812 Gibson reveals that the maritime fur trade persisted into the 1840s and shows that the trade was not solely or even principally the domain of American traders He gives an account of Russian British Spanish and American participation in the Northwest traffic describes the market in South China and outlines the evolution of the coast trade including the means and problems He also assesses the physical and cultural effects of this trade on the Northwest Coast and Hawaiian Islands and on the industrialization of the New England states Gibson s new interpretations derive in part from his use of Western primary sources that have been largely ignored by previous investigators In addition to being the first to use many Russian language sources Gibson consulted the records of the Russian American East India and Hudson s Bay Companies the unpublished logs and journals of a number of American ships and the business correspondence of several New England shipowners No more comprehensive or painstakingly researched account of the maritime fur trade of the Northwest Coast has ever been written Pioneering Conservation in Alaska Ken Ross,2017-10-01 A companion volume to Environmental Conflict in Alaska Pioneering Conservation in Alaska

chronicles the central land and wildlife issues and the growth of environmental conservation in Alaska during its Russian and territorial eras. The Alaskan frontier tempted fur traders, whalers, salmon fishers, gold miners, hunters, and oilmen to take what they could without regard for long-term consequences. Wildlife, species, ecosystems, and Native cultures suffered, sometimes irreparably. Damage to wildlife and lands drew the attention of environmentalists including John Muir, who applied their influence to enact wildlife protection laws and set aside lands for conservation. Alaska served as a testing ground for emergent national resource policy in the United States as environmental values of species and ecosystem sustainability replaced the unrestrained exploitation of Alaska's early frontier days. Efforts of conservation leaders and the territory's isolation, small human population, and late development prevented widespread destruction and gave Americans a unique opportunity to protect some of the world's most pristine wilderness. Enhanced by more than 100 photographs, *Pioneering Conservation in Alaska* illustrates the historical precedents for current natural resource disputes in Alaska and will fascinate readers interested in wildlife and conservation.

**When America First Met China** Eric Jay Dolin, 2012-09-03 Ancient China collides with newfangled America in this epic tale of opium smugglers, sea pirates, and dueling clipper ships. Brilliantly illuminating one of the least understood areas of American history, best-selling author Eric Jay Dolin now traces our fraught relationship with China back to its roots: the unforgiving nineteenth-century seas that separated a brash rising naval power from a battered ancient empire. It is a prescient fable for our time, one that surprisingly continues to shed light on our modern relationship with China. Indeed, the furious trade in furs, opium, and the *bêche de mer*, a rare sea cucumber delicacy, might have catalyzed America's emerging economy, but it also sparked an ecological and human rights catastrophe of such epic proportions that the reverberations can still be felt today. Peopled with fascinating characters from the Financier of the Revolution, Robert Morris, to the Chinese emperor Qianlong, who considered foreigners inferior beings, this page-turning saga of pirates and politicians, coolies and concubines becomes a must-read for any fan of Nathaniel Philbrick's *Mayflower* or Mark Kurlansky's *Cod*.

*The Fur Trade* Paul Chrisler Phillips, 1961 From the Indians of the American West to overseas influences, this book takes an extensive look at the fur trade. It details how it affected the history of North America and impacted the world economies.

Aboriginal Slavery on the Northwest Coast of North America Leland Donald, 1997-08 Presenting a new understanding of slavery on the Northwest Coast and a new perspective on the nature of Northwest Coast society, this will be a classic on one of the most important North American culture areas.

jewel in the distinguished career of Russian America scholar Lydia T Black presents a comprehensive overview of the Russian presence in Alaska Drawing on extensive archival research and employing documents only recently made available to scholars Black shows how Russian expansion was the culmination of centuries of social and economic change Black s work challenges the standard perspective on the Russian period in Alaska as a time of unbridled exploitation of Native inhabitants and natural resources Without glossing over the harsher aspects of the period Black acknowledges the complexity of relations between Russians and Native peoples She chronicles the lives of ordinary men and women the merchants and naval officers laborers and clergy who established Russian outposts in Alaska These early colonists carried with them the Orthodox faith and the Russian language their legacy endures in architecture and place names from Baranof Island to the Pribilofs This deluxe volume features fold out maps and color illustrations of rare paintings and sketches from Russian American Japanese and European sources many have never before been published An invaluable source for historians and anthropologists this accessible volume brings to life a dynamic period in Russian and Alaskan history A tribute to Black s life as a scholar and educator Russians in Alaska will become a classic in the field

The Empty Ocean Richard Ellis,2013-03-19 In The Empty Ocean acclaimed author and artist Richard Ellis tells the story of our continued plunder of life in the sea and weighs the chances for its recovery Through fascinating portraits of a wide array of creatures he introduces us to the many forms of sea life that humans have fished hunted and collected over the centuries from charismatic whales and dolphins to the lowly menhaden from sea turtles to cod tuna and coral Rich in history anecdote and surprising fact Richard Ellis s descriptions bring to life the natural history of the various species the threats they face and the losses they have suffered Killing has occurred on a truly stunning scale with extinction all too often the result leaving a once teeming ocean greatly depleted But the author also finds instances of hope and resilience of species that have begun to make remarkable comebacks when given the opportunity Written with passion and grace and illustrated with Richard Ellis s own drawings The Empty Ocean brings to a wide audience a compelling view of the damage we have caused to life in the sea and what we can do about it

Routes James Clifford,1997-04-21 When culture makes itself at home in motion where does an anthropologist stand In a follow up to The Predicament of Culture one of the defining books for anthropology in the last decade James Clifford takes the proper measure a moving picture of a world that doesn t stand still that reveals itself en route in the airport lounge and the parking lot as much as in the marketplace and the museum In this collage of essays meditations poems and travel reports Clifford takes travel and its difficult companion translation as openings into a complex modernity He contemplates a world ever more connected yet not homogeneous a global history proceeding from the fraught legacies of exploration colonization capitalist expansion immigration labor mobility and tourism Ranging from Highland New Guinea to northern California from Vancouver to London he probes current approaches to the interpretation and display of non Western arts and cultures Wherever people and things cross paths and where institutional forces work to discipline unruly encounters Clifford s

concern is with struggles to displace stereotypes to recognize divergent histories to sustain postcolonial and tribal identities in contexts of domination and globalization Travel diaspora border crossing self location the making of homes away from home these are transcultural predicaments for the late twentieth century The map that might account for them the history of an entangled modernity emerges here as an unfinished series of paths and negotiations leading in many directions while returning again and again to the struggles and arts of cultural encounter the impossible inescapable tasks of translation
