*Hamlet's Search for Meaning* Walter N. King, 2011 Theological and psychological interpretations of Shakespeare's most problematic play have been pursued as complementary to each other In this bold reading Walter N King brings twentieth-century Christian existentialism and post Freudian psychological theory to bear upon Hamlet and his famous problems King draws on the support of Paul Tillich John Macquarrie and Nicolai Beryaev who radically reinterpreted the Christian doctrine of providence and presents an unconventional thesis He derives illuminating psychological insights from Erik Erikson the pioneer in the modern study of identity and Viktor Frankl the founder of logotherapy      *Viktor Frankl and the Book of Job* Marshall H. Lewis, 2019 This book accomplishes two distinct tasks First it develops the psychological theory of Dr Viktor E Frankl as a literary hermeneutic Second it applies the hermeneutic by reading the book of Job Key issues emerge through three movements The first movement addresses Frankl's concept of the feeling of meaninglessness and his rejection of reductionism and nihilism The second movement addresses the dual nature of meaning an association is revealed between Frankl's understanding of meaning and the Joban understanding of wisdom The third movement involves an exploration of Frankl's ideas of ultimate meaning and self transcendence As a Holocaust survivor Frankl had a personal stake in the effectiveness of his approach He lived the suffering about which he wrote Because of this reading the book of Job with a hermeneutic based on Frankl's ideas will present readers with opportunities to discover unique meanings and serve to clarify their attitudes toward pain guilt and death As meaning is discovered through participation with the text we will see that Job's final response can become a site for transcending suffering Applying Victor Frankl's logotherapy to the book of Job Marshall Lewis sees Job as one forced to make sense of what appears to be an absurd situation A fresh reading of both Frankl and Job Lewis following Frankl argues that while any experience can be made meaningful in the end we are sometimes better off accepting a world in which suffering has no meaning at least at present A bold and ambitious reading that respects the text of Job as much as it does the texts of Frankl the book uses Frankl to construct a new hermeneutic of reading C Fred Alford Professor Emeritus University of Maryland College Park and author of *After the Holocaust The Book of Job* Primo Levi and the Path to Affliction Marshall H Lewis is a psychotherapist and logotherapist who has practiced for over thirty years He is a frequent speaker on Viktor Frankl's theory and serves on the faculty of the Viktor Frankl Institute of Logotherapy His graduate training in psychology and doctoral training in Bible culture and hermeneutics led him to write this book      The Sacred Paths Theodore M. Ludwig, 2001 For courses in Religions of the World History of Religions Comparative Religion and Introduction to Religious Studies in departments of Religion Religious Studies Theology and Philosophy Unique in approach this text combines an historical descriptive presentation of individual religions with a

comparative thematic approach It begins with a discussion of the basic human questions and concerns relating to religion e g origin and identity ultimate reality human nature and the good life and then uses these essential concepts to help describe the beliefs practices and historical development of each religion As the work of a single scholar much of it based on original research this book offers a consistency and depth missing in many of the texts in this field
